**African Womanhood**

**and the Feminist Agenda** Musingafi, Maxwell Constantine Chando, Hungwe, Chipso, 2024-01-16 Within academic circles there is a longstanding issue concerning the portrayal and understanding of African womanhood. Frequently these narratives are crafted by outsiders, predominantly Western scholars, often distorting the lived experiences and unique perspectives of African women. This has led to a skewed and sometimes negative perception of African women, reinforcing stereotypes and sidelining their voices in critical discussions. Moreover, this misrepresentation has real-world consequences as it impacts social justice initiatives and development projects that rely on misguided narratives rather than the authentic voices of African women. African Womanhood and the Feminist Agenda emerges as an essential solution to the misrepresentation of African women. This comprehensive and meticulously researched book offers an alternative narrative, one that is rooted in African perspectives and experiences. It addresses the historical, cultural, and political dimensions of African womanhood, providing a rich and nuanced understanding of this multifaceted topic. Boundary Blurred: A Seamless Customer Experience in Virtual and Real Spaces Nina Krey, Patricia Rossi, 2018-11-27 We see our customers as invited guests to a party, and we are the hosts. It's our job every day to make every important aspect of the customer experience a little bit better. Jeff Bezos, Founder and CEO of Amazon.com. This proceedings volume explores the ways in which marketers can learn about customers through big data and other sources to create an enhanced customer experience. Consumers today do not simply demand engaging online or offline experiences anymore; they increasingly focus on one seamless experience throughout their journey across virtual and real spaces. While shopping in a physical store, consumers are checking their smart phones for customer reviews and competitive information and catching a Pokémon or two at the same time. Online experience is no longer only about price shopping and convenience, and offline is no longer only about SKUs. Individual channels matter less and less; it is the omni-channel experience that is becoming mainstream. Marketers need to keep pace and continually adapt and contribute to the changing consumer landscape. Through countless touchpoints across different channels and media, marketers today can learn more about their customers and are better equipped than ever to provide them with a desired, augmented experience: easy, fun, engaging, and efficient. Featuring the full proceedings from the 2018 Academy of Marketing Science (AMS) Annual Conference held in New Orleans, Louisiana, this volume provides ground-breaking research from scholars and practitioners from around the world that will help marketers continue to engage their customers in this new landscape. Founded in 1971, the Academy of Marketing Science is an international organization dedicated to promoting timely explorations of phenomena related to the science of marketing in theory, research, and practice. Among its services to members and the community at large, the Academy offers conferences, congresses, and symposia that attract delegates from around the world. Presentations from these events are published in this Proceedings series, which offers a comprehensive archive of volumes reflecting the evolution of the field. Volumes deliver cutting-edge research and insights complementing the Academy's flagship journals, the Journal of the Academy of Marketing Science (JAMS) and AMS Review. Volumes are edited by

leading scholars and practitioners across a wide range of subject areas in marketing science
