McKenzie, 2010-01-01 In this lively and accessible book Alyce McKenzie explores how fiction writers approach the task of writing novels how they develop their ideas where they find their inspiration and how they turn the spark of a creative notion into words on paper that will captivate the masses McKenzie's study shows how preachers can use the same techniques to enhance their own creativity and to turn their ideas into powerful well crafted sermons *Novel Preaching* offers a wealth of advice from successful fiction writers including Isabelle Allende Frederick Buechner Julia Cameron Annie Dillard Natalie Goldberg Stephen King Toni Morrison Joyce Carol Oates and Melanie Rae Thorn and also includes a number of sample sermons from McKenzie herself Medieval Literature: The Basics Angela Jane Weisl, Anthony Joseph Cunder, 2018-03-20 *Medieval Literature The Basics* is an engaging introduction to this fascinating body of literature The volume breaks down the variety of genres used in the corpus of medieval literature and makes these texts accessible to readers It engages with the familiarities present in the narratives and connects these ideas with a contemporary twenty first century audience The volume also addresses contemporary medievalism to show the presence of medieval literature in contemporary culture such as film television games and novels From Dante and Chaucer to Christine de Pisan this book deals with questions such as What is medieval literature What are some of the key topics and genres of medieval literature How did it evolve as technology such as the printing press developed How has it remained relevant in the twenty first century *Medieval Literature The Basics* is an ideal introduction for students coming to the subject for the first time while also acting as a springboard from which deeper interaction with medieval literature can be developed **Cartographies of Culture** Damian Walford Davies, 2012-06-15 *Cartographies of Culture* *New Geographies of Welsh Writing in English* offers a pioneering new examination of the links between maps and imaginative writing Concerned to draw literary studies and geography into a fruitful dialogue the book offers a genuinely interdisciplinary study of literary texts in relation to the spatialities of culture Taking the anglophone

Heaven Mark Kingwell,2007-11-20 A new perspective on a beloved cultural icon its place in our history and its meaning in the American imagination This elegantly written appreciation of the Empire State Building opens up the building s richness and importance as an icon of America The book leads us through the facts surrounding the skyscraper s conception and construction then enters into a provocative theoretical discussion of its function as an icon its representation in pictures literature and film and the implications of its iconic status as New York s most important architectural monument to ambition and optimism The Empire State Building literally cannot be seen in its totality from any perspective And paradoxically this building of unmistakable solidity has been made invisible by familiarity and reproduction through imagery Mark Kingwell encourages us to look beneath the strong physical presence of the building to become aware of its evolving layers of meaning and to see how the building lives within a unique imaginative space in the landscape of the American consciousness He offers new ways of understanding the Empire State Building in all its complexity and surprising insights into its special role as an American icon **The Disney Middle Ages** T. Pugh,S. Aronstein,2012-12-10 For many the middle ages depicted in Walt Disney movies have come to figure as the middle ages forming the earliest visions of the medieval past for much of the contemporary Western and increasingly Eastern imagination The essayists of The Disney Middle Ages explore Disney s mediation and re creation of a fairy tale and fantasy past not to lament its exploitation of the middle ages for corporate ends but to examine how and why these medieval visions prove so readily adaptable to themed entertainments many centuries after their creation What results is a scrupulous and comprehensive examination of the intersection between the products of the Disney Corporation and popular culture s fascination with the middle ages **New and Experimental Approaches to**

Theatrical Topographies Sarah M. Misemer, 2017-06-05 The economic crisis in Argentina in 2001 2002 that spilled over into Uruguay causing fiscal and political problems is the starting point for my research on space and theater and it demonstrates why we must look at the River Plate in both global and local ways Connections among monetary policies industries and legal social and political movements mean that national spaces like Uruguay's are fraught with tensions that come from both within and outside of borders Recent economic crises like the one that is occurring in Greece further demonstrate how nation states and trade blocks must constantly negotiate power as they toggle between national and international pressures Nation states are being prompted to reconceive perspectives on governance that fall away from the parameters of Westphalian autonomy and reconcile their views with trends that instead require thinking about power as a network with shifting centers The introduction launches the study by addressing these political and economic trends the spatial turn in theater and performance studies the rise of multiculturalism and also examines the Uruguayan historical context of the post dictatorship and impunity laws that pit national sovereignty against international human rights laws These crises are enacted on the Uruguayan stage and contextualized through networks and spatial topographies intertextualities on the page explorations of history and memory and ultimately notions of identity in four areas the postdramatic and economic realm chapter one Peveroni cultural geography and psychogeography chapter two Morena midrash and questions of human rights and growing fascist trends chapter three Sanguinetti and finally in mapmaking on the stage through mise en perf performise and wayfinding through sites of contested power chapter four Calder n The concluding chapter Blanco looks at the reinterpretation of Greek tragedy as a commentary on the messy process of democratization Here access to the polis and power are problematized through the lens of international sex trafficking and gendered roles that exclude portions of the populace from participation in the
