

The States of Matter

Teacher: Melissa Winfield
Content Area Subject: Science
Curriculum Area: Physical Science (Matter)
Grade Level: 5/6 (special ed)

National Learning Standard:

NS.5-8.2 PHYSICAL SCIENCE

As a result of their activities in grades 5-8, all students should develop an understanding

- Properties and changes of properties in matter
- Motions and forces
- Transfer of energy

Lesson Objectives:

1. The student will be able to recognize that matter is anything that has mass and takes up space.
2. The student will be able to conclude that an object's physical properties can be used to identify it.

Materials: Smartboard, Computer, 1-2 different items for each state of matter (solid, liquid, gas- ex: balloon filled with helium, pencil, water, etc...)

Procedures:

1. The teacher will start the lesson by reviewing the term matter and its three states. The teacher will model and categorize various physical examples of each property and initiate the creation of a list. Next, the teacher will ask for further examples from students and add their examples to the list as well.

Lesson Planning and Illustrative Lesson Plan John McFarland Foote,1926 Resources in Education ,1998 **The Subject-matter and Administration of the Six-three-three Plan of Secondary Schools** Calvin Olin Davis,1916

Concepts of Earth Science & Chemistry Parent Lesson Plan John Hudson Tiner,2013-08-26 Concepts of Earth and Chemistry Course Description This is the suggested course sequence that allows one core area of science to be studied per semester You can change the sequence of the semesters per the needs or interests of your student materials for each semester are independent of one another to allow flexibility Semester 1 Earth Blending a creationism perspective of history with definitions of terms and identification of famous explorers scientists etc this book gives students an excellent initial knowledge of people and places encouraging them to continue their studies in depth Semester 2 Chemistry Chemistry is an amazing branch of science that affects us every day yet few people realize it or even give it much thought Without chemistry there would be nothing made of plastic there would be no rubber tires no tin cans no televisions no microwave ovens or something as simple as wax paper This book presents an exciting and intriguing tour through the realm of chemistry as each chapter unfolds with facts and stories about the discoveries of discoverers Find out why pure gold is not used for jewelry or coins Join Humphry Davy as he made many chemical discoveries and learn how they shortened his life See how people in the 1870s could jump over the top of the Washington Monument Exploring the World of Chemistry brings science to life and is a wonderful learning tool with many illustrations and biographical information **A Constructivist Approach to Teaching a 7th Grade Matter Unit** Philip A. Ewing,2002 Christian Heritage Parent Lesson Plan ,2013-08-01 Course Description Semesters 1 2 In 1776 56 men signed their names on a document that they knew might well mean their certain deaths as traitors to England Standing on principles of faith and liberty these men forged a powerful call for freedom and human dignity still resonating today in America Yet historical revisionists have distorted or attempted to wipe away every trace of this nation s Christian heritage including the heartfelt faith of these founding fathers The Declaration of Independence remains one of history s most enduring achievements and this text will help you value those freedoms these men fought for in an insightfully fresh way It will also assist you in catching the God given vision of these faithful new Americans igniting a fire for your family community and the generations to come For You They Signed should be found in every private and public library in America a meticulously documented look back to the true birth of our nation They pledged their lives their fortunes and their sacred honor so that we could be free *Instructional Planning for Effective Teaching* James H. Stronge,Xianxuan Xu,2015-12-02 Cultivate meaningful learning schoolwide Taking a practical approach to instructional planning the authors outline research based planning tools and illustrate how teachers leaders and administrators can use these tools in everyday practice Discover powerful strategies and guidelines for developing quality lessons setting learning objectives planning differentiated instruction and designing technology integrated learning to effectively teach and challenge every student

Geology & Biblical History Parent Lesson Plan ,2013-09-20 This Geology Biblical History Curriculum Guide contains materials for use with Your Guide to the Grand Canyon Your Guide to Zion and Bryce Canyon National Parks Your Guide to Yellowstone and Grand Teton National Park Explore the Grand Canyon DVD Explore Yosemite and Zion National Parks DVD and Explore Yellowstone DVD Lesson Planner Weekly Lesson Schedule Student Worksheets Quizzes Test Answer Key 8th 9th grade 1 Year Science 1 Credit Features Each suggested weekly schedule has three easy to manage lessons which combine reading worksheets and vocabulary building opportunities including an expanded glossary for each book Designed to allow your student to be independent materials in this resource are divided by section so you can remove quizzes tests and answer keys before beginning the coursework As always you are encouraged to adjust the schedule and materials as you need to in order to best work within your educational program Workflow Students will read the pages in their book and then complete each section of the study guide worksheets Tests are given at regular intervals with space to record each grade Younger students may be given the option of taking open book tests Lesson Scheduling Space is given for assignment dates There is flexibility in scheduling For example the parent may opt for a M W schedule rather than a M W F schedule Each week listed has five days but due to vacations the school work week may not be M F Please adapt the days to your school schedule As the student completes each assignment he she should put an X in the box

Resources for Teaching Middle School Science Smithsonian Institution,National Academy of Engineering,National Science Resources Center of the National Academy of Sciences,Institute of Medicine,1998-04-30 With age appropriate inquiry centered curriculum materials and sound teaching practices middle school science can capture the interest and energy of adolescent students and expand their understanding of the world around them Resources for Teaching Middle School Science developed by the National Science Resources Center NSRC is a valuable tool for identifying and selecting effective science curriculum materials that will engage students in grades 6 through 8 The volume describes more than 400 curriculum titles that are aligned with the National Science Education Standards This completely new guide follows on the success of Resources for Teaching Elementary School Science the first in the NSRC series of annotated guides to hands on inquiry centered curriculum materials and other resources for science teachers The curriculum materials in the new guide are grouped in five chapters by scientific area Physical Science Life Science Environmental Science Earth and Space Science and Multidisciplinary and Applied Science They are also grouped by type core materials supplementary units and science activity books Each annotation of curriculum material includes a recommended grade level a description of the activities involved and of what students can be expected to learn a list of accompanying materials a reading level and ordering information The curriculum materials included in this book were selected by panels of teachers and scientists using evaluation criteria developed for the guide The criteria reflect and incorporate goals and principles of the National Science Education Standards The annotations designate the specific content standards on which these curriculum pieces focus In addition to the curriculum chapters the guide contains six chapters of

diverse resources that are directly relevant to middle school science Among these is a chapter on educational software and multimedia programs chapters on books about science and teaching directories and guides to science trade books and periodicals for teachers and students Another section features institutional resources One chapter lists about 600 science centers museums and zoos where teachers can take middle school students for interactive science experiences Another chapter describes nearly 140 professional associations and U S government agencies that offer resources and assistance Authoritative extensive and thoroughly indexed and the only guide of its kind Resources for Teaching Middle School Science will be the most used book on the shelf for science teachers school administrators teacher trainers science curriculum specialists advocates of hands on science teaching and concerned parents

The Mathematics Lesson-Planning Handbook, Grades 6-8 Lois A. Williams, Beth McCord Kobett, Ruth Harbin Miles, 2018-12-28 Your blueprint to planning Grades 6 8 math lessons that lead to achievement for all learners When it comes to planning mathematics lessons do you sometimes feel burdened Have you ever scrambled for an activity to engage your students that aligns with your state standards Do you ever look at a recommended mathematics lesson plan and think This will never work for my students The Mathematics Lesson Planning Handbook Your Blueprint for Building Cohesive Lessons Grades 6 8 walks you step by step through the process of planning focused research based mathematics lessons that enhance the coherence rigor and purpose of state standards and address the unique learning needs of your individual students This resource deepens the daily lesson planning process for middle school teachers and offers practical guidance for merging routines resources and effective teaching techniques into an individualized and manageable set of lesson plans The effective planning process helps you Identify learning intentions and connect goals to success criteria Select resources and worthwhile tasks that make the best use of instructional materials Structure lessons differently for traditional and block middle school schedules Anticipate student misconceptions and evaluate understanding using a variety of formative assessment techniques Facilitate questioning encourage productive struggle and close lessons with reflection techniques This author team of seasoned mathematics educators make lesson planning practical and doable with a useful lesson planning template and real life examples from Grades 6 8 classrooms Chapter by chapter the decision making strategies empower teachers to plan mathematics lessons strategically to teach with intention and confidence and to build purposeful rigorous coherent lessons that lead to mathematics achievement for all learners
