## **Memorandum Geography Grade 11 Septembar 2014:**

**The Meritocracy Trap** Daniel Markovits, 2020-09-08 A revolutionary new argument from eminent Yale Law professor Daniel Markovits attacking the false promise of meritocracy It is an axiom of American life that advantage should be earned through ability and effort Even as the country divides itself at every turn the meritocratic ideal that social and economic rewards should follow achievement rather than breeding reigns supreme Both Democrats and Republicans insistently repeat meritocratic notions Meritocracy cuts to the heart of who we are It sustains the American dream But what if both up and down the social ladder meritocracy is a sham Today meritocracy has become exactly what it was conceived to resist a mechanism for the concentration and dynastic transmission of wealth and privilege across generations Upward mobility has become a fantasy and the embattled middle classes are now more likely to sink into the working poor than to rise into the professional elite At the same time meritocracy now ensnares even those who manage to claw their way to the top requiring rich adults to work with crushing intensity exploiting their expensive educations in order to extract a return All this is not the result of deviations or retreats from meritocracy but rather stems directly from meritocracy's successes This is the radical argument that Daniel Markovits prosecutes with rare force Markovits is well placed to expose the sham of meritocracy Having spent his life at elite universities he knows from the inside the corrosive system we are trapped within Markovits also knows that if we understand that meritocratic inequality produces near universal harm we can cure it When The Meritocracy Trap reveals the inner workings of the meritocratic machine it also illuminates the first steps outward towards a new world that might once again afford dignity and prosperity to the American people Mobility and Migration Choices Martin van der Velde, Ton van Naerssen, 2016-03-03 The crossing of national state borders is one of the most discussed issues of contemporary times and it poses many challenges for individual and collective identities This concerns both short distance mobility as well as long distance migration Choosing to move or not across international borders is a complex decision involving both cognitive and emotional processes This book tests the approach that three crucial thresholds need to be crossed before mobility occurs the individual's mindset about migrating the choice of destination and perception of crossing borders to that location and the specific routes and spatial trajectories available to get there Thus both borders and trajectories can act as thresholds to spatial moves The threshold approach with its focus on processes affecting whether when and where to move aims to understand the decision making process in all its dimensions in the hope that this will lead to a better understanding of the ways migrants conceive perceive and undertake their transnational journeys This book examines the three constitutive parts discerned in the cross border mobility decision making process people borders and trajectories and their interrelationships Illustrated by a global range of case studies it demonstrates that the relation between the three is not fixed but flexible and that decision making contains aspects of belonging instability security and volatility affecting their mobility or immobility America's Moment: Creating Opportunity in the Connected Age Rework

America,2015-06-15 It is time for a new conversation Amid the biggest economic transformation in a century the challenge of our time is to make sure that all Americans benefit from the wave of digital revolutions around the world that have permeated and upended modern life Yet today s economic arguments seem stuck We need a new vision of a hopeful future and a new action agenda So many Americans are uncertain about the future How can there be so many paths to opportunity with so few people traveling them As a nation we have to understand what is required to help Americans succeed now and how to prepare our country for what comes next We have been here before A hundred years ago America experienced the greatest economic transformation and technological revolution in its history The transformation of the past twenty years as the world has moved through the information era into the digital age has turned our life and work upside down once again It is a time of tremendous change but also of tremendous possibility Rework America is a group of American leaders who know from experience the challenges we face and the potential solutions In America s Moment they suggest a practical agenda for an exciting future It is illustrated by people who are already showing the way and includes actions Americans can take today in their own communities preparing people to succeed using the reach of the Internet and data to innovate jobs and to reach new markets all over the world using technology to match employers and workers and transitioning to a no collar working world neither blue collar nor white collar Set against the history of how Americans succeeded once before in remaking their country America s Moment is about the future It describes how the same forces of change technology and a networked world can become tools that can open opportunity to everyone      *The Rise and Rise of Illegal Ticket Touting* Alessandro

Moretti,2023-02-10 This book presents an ethnographic study of contemporary ticket touts in the UK Despite the recent interest in the topic of black market ticket sales media coverage and parliamentary interventions over the last ten years have revealed a widespread lack of knowledge with regard to the phenomenon of touting and the players engaging in the practice The Rise and Rise of Illegal Ticket Touting sheds light on the world of touting and delivers an authentic picture of the individuals involved of their methods values and motivations for performing ticket touting as an organised entrepreneurial deviant activity The touts varied methods of buying and selling tickets the hierarchical structures and strict ethos of their criminal organisations and their specific modi operandi for evading detection and arrest both on the streets and online are focal points of the study Of equal importance are the touts attitudes perceptions and adaptations to or outright dismissal of society s legal and moral frameworks This book illuminates why historic and renewed attempts to challenge ticket touting have been unsuccessful focusing on inadequate legislation a lack of enforcement and the widespread corruption and exploitable loopholes that exist within the official primary ticket market An accessible and compelling read The Rise and Rise of Illegal Ticket Touting will appeal to students and scholars of criminology sociology social policy policing and all those with an interest in live music and sport and the hidden practices that lurk beneath the surface      **After the Education Wars**

Andrea Gabor,2018-06-12 The education wars have been demoralizing for teachers After the Education Wars helps us to see

a better way forward Cathy N Davidson The New York Times Book Review After the Education Wars is an important book that points the way to genuine reform Diane Ravitch author of Reign of Error and The Death and Life of the Great American School System A bestselling business journalist critiques the top down approach of popular education reforms and profiles the unexpected success of schools embracing a nimbler more democratic entrepreneurialism In an entirely fresh take on school reform business journalist and bestselling author Andrea Gabor argues that Bill Gates Eli Broad and other leaders of the prevailing education reform movement have borrowed all the wrong lessons from the business world After the Education Wars explains how the market based measures and carrot and stick incentives informing today s reforms are out of sync with the nurturing culture that good schools foster and contrary to popular belief at odds with the best practices of thriving twenty first century companies as well These rich detailed stories of real reform in action illustrate how enduring change must be deeply collaborative and relentlessly focused on improvement from the grass roots up lessons also learned from both the open source software and quality movements The good news is that solutions born of this philosophy are all around us from Brockton Massachusetts where the state s once failing largest high school now sends most graduates to college to Leander Texas a large district where school improvement spurred by the ideas of quality guru W Edwards Deming has become a way of life A welcome exception to the doom and gloom canon of education reform After the Education Wars makes clear that what s needed is not more grand ideas but practical and informed ways to grow the best ones that are already transforming schools

**State against Civil Society** Cameron Ross,2017-10-02 Over the period December 2011 July 2013 a tidal wave of mass protests swept through the Russian capital and engulfed scores of cities and regions These demonstrations came as a great shock to the Russian political establishment After decades of passive acceptance of the status quo it appeared that civil society was at last awakening The protests came in the wake of the Arab Spring revolts which toppled authoritarian dictators in Tunisia Egypt and Libya However by the end of 2013 the number of mass protests in Russia and their size had declined precipitously President Putin on returning to office in 2012 had quickly regained the upper hand over the protestors This book examines the reasons for the rise and fall of the mass protests in the Russian Federation Internationally renowned experts in the field of Russian politics from Russia and the UK provide important new insights into the nature of the mass opposition movement the non systemic opposition its strengths and its weaknesses A key novel aspect of the study is its focus on the national and regional dimensions of the protest movement and its class and ethnic dimensions This book was published as a special issue of Europe Asia Studies

**Putin's Labor Dilemma** Stephen Crowley,2021-07-15 In Putin s Labor Dilemma Stephen Crowley investigates how the fear of labor protest has inhibited substantial economic transformation in Russia Putin boasts he has the backing of workers in the country s industrial heartland but as economic growth slows in Russia reviving the economy will require restructuring the country s industrial landscape At the same time doing so threatens to generate protest and instability from a key regime constituency However continuing to prop up Russia

s Soviet era workplaces writes Crowley could lead to declining wages and economic stagnation threatening protest and instability Crowley explores the dynamics of a Russian labor market that generally avoids mass unemployment the potentially explosive role of Russia's monotowns conflicts generated by massive downsizing in Russia's Detroit Tolyatti and the rapid politicization of the truck drivers movement Labor protests currently show little sign of threatening Putin's hold on power but the manner in which they are being conducted point to substantial chronic problems that will be difficult to resolve Putin's Labor Dilemma demonstrates that the Russian economy must either find new sources of economic growth or face stagnation Either scenario market reforms or economic stagnation raises the possibility even probability of destabilizing social unrest

**Waste of a Nation** Assa Doron, Robin Jeffrey, 2018-03-26 Assa Doron and Robin Jeffrey argue that in India the removal and reuse of waste lays waste to human lives People at the bottom are injured and stigmatized as they work with sewage toxic chemicals and rotting garbage If India is to emerge as a model for the world its policies will have to reach beyond the environment to encompass empathy

**Surrogate Suburbs** Todd M. Michney, 2017-02-08 The story of white flight and the neglect of Black urban neighborhoods has been well told by urban historians in recent decades Yet much of this scholarship has downplayed Black agency and tended to portray African Americans as victims of structural forces beyond their control In this history of Cleveland's Black middle class Todd Michney uncovers the creative ways that members of this nascent community established footholds in areas outside the overcrowded inner city neighborhoods to which most African Americans were consigned In asserting their right to these outer city spaces African Americans appealed to city officials allied with politically progressive whites notably Jewish activists and relied upon both Black and white developers and real estate agents to expand these surrogate suburbs and maintain their livability until the bona fide suburbs became more accessible By tracking the trajectories of those who in spite of racism were able to succeed Michney offers a valuable counterweight to histories that have focused on racial conflict and Black poverty and tells the neglected story of the Black middle class in America's cities prior to the 1960s

**Another Modernism** Anna Myjak-Pycia, 2025-06-12 Filling an important gap in design history Another Modernism examines how domestic space was conceived by the US home economics movement in the first half of the 20th century In doing so it tells the story of how home economists mainly women developed design that challenged the traditional architecture of American farm communities and countered the approach of modernist architects Uncovering unacknowledged contributions of women to domestic architecture and design history it reveals early instances of participation sustainability and accommodating the disabled body in domestic design In contrast to the canonical modernist model of space which is primarily visual home economists centered on a user who interacts with the interior in a tactile bodily way Although both strove for efficiency they understood it differently whereas for many of the mainstream modernists the term efficiency meant functionalist aesthetics for home economists it signified design solutions intended to ease the labor of an average American homemaker The book argues that the home economists focus on tactility the user's

corporeality movement access preferences and her engagement in the design process constituted an alternative model of modern architecture a popular and largely rural modernism centered on the specificity of the female user and her personal experience of the domestic interior Based on little known archival material and with an emphasis on mostly female researchers designers and users occupants Another Modernism will appeal to architects design historians and anyone interested in gender women s and disability studies as well as non visual approaches to design

*A Global Idea* Mayssoun Sukarieh,2023-08-15 *A Global Idea* outlines how youth as shown by the Arab Spring uprisings and subsequent state responses became a prominent social and political category during the first two decades of the twenty first century in the Middle East Drawing on ethnographic fieldwork interview data and textual analysis Mayssoun Sukarieh explains that the spread of youth as an important category is linked to the operation of a global youth development complex a diverse transnational network of state private sector civil society and international development aid organizations that worked through key urban areas such as Washington DC Amman and Dubai In its analysis of the arrival extension and embedding of the youth development complex in the Middle East during this period *A Global Idea* addresses a broader question that is of global and not just regional concern How are certain ideas that are central to the working and reproduction of global capitalism able to travel the world so that they are found virtually everywhere

*Sustainable Peace in Northeast Asia* Yong-Shik Lee,2023-09-05 *Sustainable Peace in Northeast Asia* examines the causes of lasting and complex tensions in the region from underlying political historical military and economic perspectives discusses their historical development and political economic implications for the world and explores possible solutions to build lasting peace The book is unique in that it approaches the topic from the historical perspective of each constituent country in the region Major global powers such as the United States and Russia have also closely engaged in the political and economic affairs of this region through a network of alliances diplomacy trade and investment The book also discusses the influence of these external powers over the crisis their political and economic objectives in the region their strategies and the dynamics that their engagement has created Both South Korea and North Korea have sought reunification of the Korean peninsula which will have a substantial impact on the region The book examines its justification feasibility and effects for the region The book discusses the role of Mongolia in the context of the power dynamics in Northeast Asia A relatively small country in terms of its population Mongolia has rarely been examined in this context *Sustainable Peace in Northeast Asia* makes a fresh assessment of its potential role

**Bush Runner** Mark Bourrie,2019-04-02 WINNER OF THE 2020 RBC TAYLOR PRIZE Readers might well wonder if Jonathan Swift at his edgiest has been at work RBC Taylor Prize Jury Citation A remarkable biography of an even more remarkable 17th century individual Beautifully written and endlessly thought provoking Maclean s Murderer Salesman Pirate Adventurer Cannibal Co founder of the Hudson s Bay Company Known to some as the first European to explore the upper Mississippi and widely as the namesake of ships and hotel chains Pierre Esprit Radisson is perhaps best described writes Mark Bourrie as an

eager hustler with no known scruples Kidnapped by Mohawk warriors at the age of fifteen Radisson assimilated and was adopted by a powerful family only to escape to New York City after less than a year After being recaptured he defected from a raiding party to the Dutch and crossed the Atlantic to Holland thus beginning a lifetime of seized opportunities and frustrated ambitions A guest among First Nations communities French fur traders and royal courts witness to London s Great Plague and Great Fire and unwitting agent of the Jesuits corporate espionage Radisson double crossed the English French Dutch and his adoptive Mohawk family alike found himself marooned by pirates in Spain and lived through shipwreck on the reefs of Venezuela His most lasting venture as an Arctic fur trader led to the founding of the Hudson s Bay Company which operates today 350 years later as North America s oldest corporation Sourced from Radisson s journals which are the best first hand accounts of 17th century Canada Bush Runner tells the extraordinary true story of this protean 17th century figure a man more trading partner than colonizer a peddler of goods and not worldview and with it offers a fresh perspective on the world in which he lived

**Fighting the Great War at Sea** Norman Friedman,2014-10-15 While the overriding image of the First World War is of the bloody stalemate on the Western Front the overall shape of the war arose out of its maritime character It was essentially a struggle about access to worldwide resources most clearly seen in Germany s desperate attempts to counter the American industrial threat which ultimately drew the United States into the war This radical new book concentrates on the way in which each side tried to use or deny the sea to the other and in so doing describes rapid wartime changes not only in ship and weapons technology but also in the way naval warfare was envisaged and fought Melding strategic technical and tactical aspects Friedman approaches the First World War from a fresh perspective and demonstrates how its perceived lessons dominated the way navies prepared for the Second World War
