

Which service technique is best?

Ford recognizes that individual drivers do varied kinds of things and therefore the idea of parking that you require depends upon your situation. For example, if you need to find long-term parking and then return to your vehicle for something like a gas tank or oil change, Ford's parking assistance system will help you find the nearest parking spot. If you're looking for short-term parking, such as at a restaurant or shopping center, the system will help you find the closest available spot. And if you're looking for a place to park overnight, the system will help you find the best location for a hotel or motel.
