**Trading Code Is Open: ST Patterns of the Forex and Futures Exchanges, 100% Profit Per Month, Proven Market Strategy, Robots, Scripts, Alerts**

Vladimir Poltoratskiy, 2017-05-17 The new system of trade based on Structural Target Patterns ST Patterns presented in this book is able to bring a monthly profit equal to 100% or more on average of the deposit amount To be successful in today's Forex and Futures markets most of the knowledge and trading techniques accumulated over the last two centuries are not needed at all The technical portion of a profitable trading system only needs to include the ST Patterns strategy This method of assessing market movements by using target models gives traders clear and unambiguous signals regarding their actions in the present moment The graphic figures presented here build upon each other iteratively to create a clear picture of market conditions Unlike the claims of the most popular technical and fundamental analysis methods the trading system in this book does not predict market behavior I no longer need any predictions about prices because their movements have become obvious to me Following the ST Patterns method managing trading positions becomes simple It took me many years to establish and improve this trading system and now it is ready to be used by you I believe that at the very least this book can save traders time and money You can spend a whole lifetime in search of the Holy Grail but it is possible to solve the problems associated with trading in just a few days The present determines the future Opportunities to use ST patterns are included in the free preview of the first pages of this book For more information please visit website at <https://www.stpatterns.com>
