Notjohn's Guide to E-Book Formatting N.J. Notjohn, 2017-01-01 The self publisher's bible In this clear and entertaining ten step guide now in its eighth edition a prolific American author tells how he formats his books using free software for upload to online bookstores The secret he explains is to use the universal epub format to create a single e book file that will be accepted by every digital retailer from Amazon.com through Barnes more often it doesn't because these programs litter the file with hidden formatting The result can be a disaster Instead the word processing document should be converted to clean HTML the markup language used to create a web page All e books are web pages at heart and the Kindle and other e book readers are just special purpose web browsers The conversion from document to HTML file takes seconds It can then be plugged into a simple template that Notjohn includes in this Guide and also makes available on his blog for anyone to use He also supplies a style sheet to format the book for best appearance on the Kindle Fire tablet the various Kindle apps as well as on competing tablets and e book readers If all else fails there's Plan B a stripped down template for novels and for non fiction that consists mostly of text He concludes with a chapter on how best to present your e book on the Kindle platform with hints on encrypting the book copyrighting it and pricing it for the greatest return And new this year a

chapter on adapting the e book to a print edition With illustrations and screenshots Revised and updated 2017 edition

The Performance Complex David Stark, 2020-07-10 Chapter 1 from this book is published open access and free to read or download from Oxford Academic What's valuable Market competition provides one kind of answer Competitions offer another On one side competition is an ongoing and seemingly endless process of pricings on the other competitions are discrete and bounded in time and location with entry rules judges scores and prizes This book examines what happens when ever more activities in domains of everyday life are evaluated and experienced in terms of performance metrics Unlike organized competitions such systems are ceaseless and without formal entry Instead of producing resolutions their scorings create addictions To understand these developments this book explores discrete contests architectural competitions international music competitions and world press photo competitions shows how the continuous updating of rankings is both a device for navigating the social world and an engine of anxiety and examines the production of such anxiety in settings ranging from the pedagogy of performance in business schools to struggling musicians coping with new performance metrics in online platforms In the performance society networks of observation in which all are performing and keeping score are entangled with a system of emotionally charged preoccupations with one's positioning within the rankings From the bedroom to the boardroom pharmaceutical companies and management consultants promise enhanced performance This assemblage of metrics networks and their attendant emotional pathologies is herein regarded as the performance complex **Strategic**
