**Dimensions in Learning English i , Interpreting Indonesian Politics** Benedict R O'g Anderson, Audrey Kahin, 2009-12 Over the past two decades there has been a continuing debate among Western scholars concerning the nature of Indonesian politics and the best approaches for understanding them Several of the most important contributions to this debate were never published and others have gone out of print Thus it has been difficult for a new generation of students of Indonesia to be aware of the range of opinions and discussion in Western academic circles concerning the character of postrevolutionary Indonesian politics For this reason it appeared to us useful to bring together a series of articles that can provide a framework for understanding the evolution of these perspectives Clearly we could not include all the important contributions to the debate and this selection has been made on the basis of the best representation of differing views over time In general the pieces appear in chronological sequence in order to delineate more clearly the evolution of the debate To

maintain this chronological development we have also made no changes in the arguments as originally presented nor with one exception permitted the authors to do so even when they have altered their opinions since originally writing the essays Passages however have occasionally been cut from published articles where they are too repetitive or where they are not relevant to the major themes being presented here All such omissions are indicated by a series of dots Because of the continuing nature of the debate the collection is being published as an Interim Report which we hope will stimulate further reactions and analyses LaFleur Brooks' Health Unit Coordinating Elaine A.
