Students will analyze the major events and outcomes of the American Revolution as well as the individuals who played influential roles in the development of the new nation. Students will follow the development of the United States and its government continuing through the early 1800s century. Students will analyze the impact of the expansion and unification of the U.S., including implications in domestic and foreign policy. Students will also study policies that affected American Indians and African Americans. Finally, students will examine the major events and issues leading up to the Civil War, individuals and events that were significant during the war, and the resulting era of Reconstruction. This course will place Tennessee history, government, and geography in context with U.S. history in order to illustrate the role our state has played in American history.
