Hartmann, 2012-03-01 **Governing the American State** Kimberly Johnson, 2016-06-28 The modern centralized American state was supposedly born in the Great Depression of the 1930s Kimberley S Johnson argues that this conventional wisdom is wrong Cooperative federalism was not born in a Big Bang but instead emerged out of power struggles within the nation s major political institutions during the late nineteenth and early twentieth centuries Examining the fifty two years from the end of Reconstruction to the beginning of the Great Depression Johnson shows that the first New Federalism was created during this era from dozens of policy initiatives enacted by a modernizing Congress The expansion of national power took the shape of policy instruments that reflected the constraints imposed by the national courts and the Constitution but that also satisfied emergent policy coalitions of interest groups local actors bureaucrats and members of Congress Thus argues Johnson the New Deal was not a decisive break with the past but rather a superstructure built on a foundation that emerged during the Gilded Age and the Progressive Era Her evidence draws on an analysis of 131 national programs enacted between 1877 and 1930 a statistical analysis of these programs and detailed case studies of three of them the Federal Highway Act of 1916 the Food and Drug Act of 1906 and the Sheppard Towner Act of 1921 As this book shows federalism has played a vital but often underappreciated role in shaping the modern American state **Techlash** Tom Wheeler, 2023-10-15 Hailed by Publishers Weekly as a potent primer on the need to rein in big tech and Kirkus Reviews as a rock solid plan for controlling the tech giants readers will be energized by Tom Wheeler s vision of digital governance

Based on the struggle over a Fargo North Dakota abortion clinic *Contested Lives* explores one of the central social conflicts of our time Both wide ranging and rich in detail it speaks not simply to the abortion issue but also to the critical role of women's political activism A new introduction addresses the events of the last decade which saw the emergence of Operation Rescue and a shift toward more violent even deadly forms of anti abortion protest Responses to this trend included government legislation a decline in clinics and doctors offering abortion services and also the formation of Common Ground an alliance bringing together activists from both sides to address shared concerns Ginsburg shows that what may have seemed an ephemeral artifact of Midwestern feminism of the 1980s actually foreshadowed unprecedented possibilities for reconciliation in one of the most entrenched conflicts of our times Study Guide to Accompany Irwin Unger's *These United States, the Questions of Our Past* Ronald S.
