Hearts And Minds:

Hearts and Minds Hannah Gurman, 2013-10-01 The first book of its kind *Hearts and Minds* is a scathing response to the grand narrative of U S counterinsurgency in which warfare is defined not by military might alone but by winning the hearts and minds of civilians Dormant as a tactic since the days of the Vietnam War in 2006 the U S Army drafted a new field manual heralding the resurrection of counterinsurgency as a primary military engagement strategy counterinsurgency campaigns followed in Iraq and Afghanistan despite the fact that counterinsurgency had utterly failed to account for the actual lived experiences of the people whose hearts and minds America had sought to win Drawing on leading thinkers in the field and using key examples from Malaya the Philippines Vietnam El Salvador Iraq and Afghanistan *Hearts and Minds* brings a long overdue focus on the many civilians caught up in these conflicts Both urgent and timely this important book challenges the idea of a neat divide between insurgents and the populations from which they emerge and should be required reading for anyone engaged in the most important contemporary debates over U S military policy *Hearts and Minds* Kenneth Boa, John Alan Turner, 2006 Parenting is about more than molding the behavior of our kids It s about influencing a child s heart and mind *Hearts and Minds* shows parents the most effective way to influence a child s heart This book applies the principles of Christian worldview in *How Now Shall We Live* to the process of raising children It deals with issues like educational choices how to handle the teaching of non Christian worldview in secular schools and how Christian worldview informs parenting choices *Hearts and Minds* William Friedman, 2014-08-29 For this anthology of poetry I would especially like to thank first of all and most of all my fianc of a dozen years Ms Kristin Neal Without her impenetrable help and care I would never recognize the myriad benefits that love inspires in me in this kind of blank verse I would also like to acknowledge the support of Mrs Maguy Joseph who was my companion in Paris for the past six years For many years I have struggled to fill pages of prose such as many notebooks I never dared back then to compose any poetry Significantly I awoke one day and found to my surprise a penchant for rime albeit blank verse From many lines I have consolidated these thoughts into a book of verse about holidays Starbucks war love black issues and many others This is even a sampling Thank you to my readership for experiencing this with me Sincerely William H Friedman *Hearts and Minds* Michael Bibby, 1996 The early 1960s to the mid 1970s was one of the most turbulent periods in American history The U S military was engaged in its longest costliest overseas conflict while the home front was torn apart by riots protests and social activism In the midst of these upheavals an underground and countercultural press emerged giving activists an extraordinary forum for a range of imaginative expressions Poetry held a prominent place in this alternative media The poem was widely viewed by activists as an inherently anti establishment form of free expression and poets were often in the vanguards of political activism *Hearts and Minds* is the first book length study of the poems of the Black Liberation Women s Liberation and GI Resistance movements during the Vietnam era Drawing on recent cultural and literary theories Bibby investigates the significance of

images tropes and symbols of human bodies in activist poetry Many key political slogans of the period black is beautiful off our backs foreground the body Bibby demonstrates that figurations of bodies marked important sites of social and political struggle Although poetry played such an important role in Vietnam era activism literary criticism has largely ignored most of this literature Bibby recuperates the cultural historical importance of Vietnam era activist poetry highlighting both its relevant contexts and revealing how it engaged political and social struggles that continue to motivate contemporary history Arguing for the need to read cultural history through these underground texts *Hearts and Minds* offers new grounds for understanding the recent history of American poetry and the role poetry has played as a medium of imaginative political expression

War of Hearts and Minds James Jouppi,2011-10-26 Under the best of conditions the Peace Corps experience is somewhat like being parachuted into a human drama unfolding in a different culture The volunteer may struggle mightily to be understood but his attempts can be for naught if he misunderstands the framework of his role Unfortunately in spite of Peace Corps training the only way a Peace Corps volunteer can understand the framework of his or her Peace Corps role is to live inside it or even as in the case of author James Jouppi return to the site where he was stationed without the trappings of Peace Corps In August of 1971 Jouppi arrived in Thailand as part of Peace Corps Thailand Group 38 a civil engineering group slated to work in the most communist sensitive and most poverty stricken areas of Thailand for Thailands Community Development Department In War of Hearts and Minds he documents the challenges of working inside the Peace Corps system both prior to his work areas being designated red and after that time as well before moving on to his attempts to work outside the Peace Corps system Augmented with maps photographs and letters War of Hearts and Minds offers a compelling look into both the politics of Nixon era America and that of staunchly anti communist Thailand as Thailand fought a shadow war adjoining the one that was raging in Vietnam and Laos In his final chapters Jouppi follows threads from Thailand as they unfold in American culture before providing insights for possible strategies in the future which could bring the goal of worldwide peace and justice closer to fruition

Losing Hearts and Minds Matthew K. Shannon,2017-12-15 Matthew K Shannon provides readers with a reminder of a brief and congenial phase of the relationship between the United States and Iran In Losing Hearts and Minds Shannon tells the story of an influx of Iranian students to American college campuses between 1950 and 1979 that globalized U S institutions of higher education and produced alliances between Iranian youths and progressive Americans Losing Hearts and Minds is a narrative rife with historical ironies Because of its superpower competition with the USSR the U S government worked with nongovernmental organizations to create the means for Iranians to train and study in the United States The stated goal of this initiative was to establish a cultural foundation for the official relationship and to provide Shah Mohammad Reza Pahlavi with educated elites to administer an ambitious program of socioeconomic development Despite these goals Shannon locates the incubation of at least one possible version of the Iranian Revolution on American college

campuses which provided a space for a large and vocal community of dissident Iranian students to organize against the Pahlavi regime and earn the support of empathetic Americans Together they rejected the Shah s authoritarian model of development and called for civil and political rights in Iran giving unwitting support to the rise of the Islamic Republic of Iran

Campaigning for Hearts and Minds Ted Brader,2020-07-08 It is common knowledge that televised political ads are meant to appeal to voters emotions yet little is known about how or if these tactics actually work Ted Brader s innovative book is the first scientific study to examine the effects that these emotional appeals in political advertising have on voter decision making At the heart of this book are ingenious experiments conducted by Brader during an election with truly eye opening results that upset conventional wisdom They show for example that simply changing the music or imagery of ads while retaining the same text provokes completely different responses He reveals that politically informed citizens are more easily manipulated by emotional appeals than less involved citizens and that positive enthusiasm ads are in fact more polarizing than negative fear ads Black and white video images are ten times more likely to signal an appeal to fear or anger than one of enthusiasm or pride and the emotional appeal triumphs over the logical appeal in nearly three quarters of all political ads Brader backs up these surprising findings with an unprecedented survey of emotional appeals in contemporary political campaigns Politicians do set out to campaign for the hearts and minds of voters and for better or for worse it is primarily through hearts that minds are won **Campaigning for Hearts and Minds** will be indispensable for anyone wishing to understand how American politics is influenced by advertising today
