the global lockdown and COVID 19 pandemic to online spending that will see twice the monetary amount lost to cybercrime than what is spent online There is little to no attribution and with the IC themselves suffering cyberattacks they are all blamed on being sophisticated ones of course We are witnessing the undermining of our entire way of life our economies and even our liberties The IC has lots to answer for and unequivocally created the disastrous situation we are currently in They currently have little to no answer We need no we must demand change That change must start by ensuring the Internet and all connections to it are secure and no longer allow easy access and exfiltration for both the ICs and cybercriminals **A**
