Robert Coover and the Generosity of the Page Stephane Vanderhaeghe,2013-03-05 Robert Coover and the Generosity of the Page is an unconventional study of Robert Coover s work from his early masterpiece The Origin of the Brunists 1966 to the recent Noir 2010 Written in the second person it offers a self reflexive investigation into the ways in which Coover s stories often challenge the reader to resist the conventions of sense making and even literary criticism By portraying characters lost in surroundings they often fail to grasp Coover s work playfully enacts a melo drama of cognition that mirrors the reader s own desire to interpret and make sense of texts in unequivocal ways This tendency in Coover s writing is indicative of a larger refusal of the ready made of the once and for all or the authoritative celebrating instead in its generosity the widening of possibilities thus inevitably forcing the reader critic to acknowledge the arbitrariness and artificiality of her responses
