Maths Workbook III Chandan Sengupta, This book is for aspirants looking for some more practices to enhance their mathematical skills and competence It can be used only after completing the text books and reference books recommended by the school of the fellow learner This book accommodates all possible streams of curriculum prescribed for the students belonging to the age group of 09 to 13 years It can even help them in gaining skills of tackling composite mathematical problems duly coined for

addressing more than three and more basic skills. Answers of individual problems are not included in this booklet. There exists a separate collection for fulfilling such purposes. Due to this reason, this handbook can be used by teachers and fellow parents for assessing achievement levels of their aspirants. This handbook provides ample scope of skill enhancement through offering series of test materials in which aspirants have to use more than one skill at a time. It will also improve the ability to think and work out own strategies of resolving mathematical problems. There are mathematical problems which require knowledge of more than one thematic area. Such problems are incorporated in the collections of Composite worksheets. In this workbook, such composite worksheets are more in number. For all students, it would be better if they acquire such skills in advance before moving through the composite worksheets. Other books in this series are as follows: 1. Handbook of Mathematics 2. Creative Mathematics Book 4 Part 1 3. Olympiad and Talent 4. Aspirations of Mathematics 5. My Own Book of School Mathematics. All these books are suitable for students of School stage having age group 09 to 13 years.
