

8th Grade Science

1st Semester Exam Study Guide

SCIENTIFIC METHOD

1. Why it is important for scientists to be skeptical? If a scientist is skeptical of the results of an experiment, what should he usually do?

Skepticism is one of the most valuable tools in science. Continual questioning of ideas and results is a means of overturning long-held assumptions and uncovering new ideas. A skeptic in science will continually review the credibility of a scientific result or idea.

2. What makes an experiment valid?

When the results give validity to the question (hypothesis) that is being asked or tested.

3. What is the difference between qualitative and quantitative data?

Qualitative Data is used to describe something using your 5 senses. Quantitative Data is when you describe something using numbers.

EARTH SCIENCE

4. What are the 4 layers of the Earth?

Inner core, outer core, mantle and crust

5. What are the two types of crust? What types of rock are they made of? Which type is more dense?

Continental – granite and Oceanic – basalt, oceanic is more dense

6. Which layer of the Earth is made of the crust plus the upper mantle (this layer is rigid and brittle like a jolly rancher)?

Lithosphere

7. Which layer of the Earth is plastic and flowing (like silly putty)?

Asthenosphere

8. Which layer (asthenosphere or lithosphere) is broken into large pieces called plates?

Lithosphere

9. Which layer (asthenosphere or lithosphere) carries the plates?

Asthenosphere

10. What process causes the tectonic plates to move?

Convection currents

11. What are the three types of plate boundaries? Describe how the plates move at each (toward each other, away from each other, or slide past each other).

Convergent – Plates come together/collide, Divergent – plates move away from each other/divide, Transform – plates slide past each other/shear

12. Describe what happens when the following plates collide:

- a. Continental crust collides with continental crust – mountains
- b. Continental crust collides with oceanic crust – subduction zone, oceanic trench and volcanoes, rift valleys
- c. Oceanic crust collides with oceanic crust - volcanoes

13. Where are ALMOST all volcanoes formed?

Volcanoes are most commonly found at subduction zone boundaries. This is where the thinner oceanic plates get pulled under the thicker continental plates. As the plates go deeper, they melt and form pockets of magma which can cause mountains to be built and as the hot magma rises, it erupts out of volcanoes.

14. What is a hot-spot volcano?

This is an extra hot plume of molten rock which causes the earth's crust to thin allowing molten rock to escape onto the surface. The movement of the earth's tectonic plates means that volcanoes form a trail along the earth's surface.

15. What occurs when too much stress builds up at a plate boundary and the rock finally breaks?

Earthquake

May 2015 Semester Exam Study Guide Answer Key

Laura Lincoln Maitland

May 2015 Semester Exam Study Guide Answer Key:

CAE Study Guide 2015 American Society of Association Executives (ASAE), 2015-02-09 The ASAE CAE preparation guide featuring 100 exam questions This is the ASAE test prep resource for the CAE exam which leads to certification as an association executive The ASAE CAE Study Guide 2015 Preparation Reference for the Certified Association Executive Exam Practice Test Bank is the only book with a practice exam based on actual questions released from the official CAE item bank This edition reflects newly updated and revised job analysis study findings from the American Society of Association Executives ASAE In this book you ll find everything you need to feel confident on test day including high level summaries of all the content covered in the CAE content outline s nine domains In addition to easy to digest content sections CAE Study Guide 2015 is full of indispensable resources for anyone preparing for CAE certification The online practice exam includes 100 questions released from the official CAE exam database and testing tips will orient you toward the most successful strategies Comprehensive content summaries of all nine domains tested on the CAE exam Online practice exam consisting of 100 questions drawn from the CAE test item database plus answer key Preparation resources including recommended reading key definitions self assessment CAE study questions and more Exam day readiness tips and suggestions for creating a study plan focusing on difficult areas and reducing test anxiety Beginning with the May 2015 CAE exam the CAE Commission will implement its revised CAE test based on the updated content structure CAE Study Guide 2015 is a terrifically useful resource for anyone seeking CAE certification
