Linda J. Ingram, Klára Tarkó, Susan L. Slocum, 2021-12-03 *Women Leisure and Tourism* provides a comprehensive discussion of women leisure and tourism through the lens of leisure production and consumption both by women and for women. Specifically, this text includes a multi-cultural perspective to highlight the unique attributes leisure brings to women, the role of women in leisure entrepreneurship and the creation of supportive inclusive environments to enhance female well-being through the examination of these activities in often overlooked populations. The diversity of women's leisure and tourism practices is best perceived through the links between various leisure practices e.g. sport, outdoor recreation, travel and tourism, learning, crafts, events, family leisure, as well as an understanding of leisure production across cultures and life stages. These chapters bring to the forefront many of the challenges inherent in providing leisure and tourism that support the diverse needs of women as well as a look at female innovation that is also often overlooked in leisure research. The book includes examples of both applied and conceptual chapters from global perspectives in academic studies. **Future**

By drawing on examples, it incorporates a detailed analysis of a range of economic, socio-cultural, political and environmental issues which are being experienced to differing extents by coastal tourism resorts which are at different life cycle stages of development. The major management themes highlighted include the processes of restructuring, attempts to develop sustainable agendas and environmental issues of developing resorts in sensitive areas. Written by key experts, this book provides a critical assessment of the key management issues facing coastal tourism resorts globally. In doing so, it represents more than a mere amalgamation of existing literature as it aims to advance conceptual
