Directions: Fill in the Roman Republic leadership positions below.

<p>Consul</p> <p>The Consul was the most important leadership role in the Roman Republic. Consul was a one-year position. To keep one person from having too much power, Romans elected two Consuls together. The Consuls had to work together to make decisions for the Roman Republic. Consuls could take Rome to war, collect taxes, and make laws.</p>	<p>Senator</p> <p>Under the Consuls were the senators. A senator was a lifetime position. The Senate was an important group of men who helped the Consuls make decisions for Rome.</p>
<p>Tribunes</p> <p>The Plebeian Council could make laws and hold court hearings. Leaders elected to the Plebeian Council were called Tribunes. Tribunes had the power to reject rules or decrees made by the Senate.</p>	<p>Aediles</p> <p>Leaders in charge of taking care of all the public buildings in Rome were called Aediles. Aediles would often hold public festivals that were very popular with the people. As Aediles became more popular in Rome, they often moved up in the Roman government, becoming senators or even consuls.</p>
<p>Censors</p> <p>Censors were responsible for counting Roman citizens in a process called the census. Censors also helped with managing how much money the Roman republic had.</p>	<p>Governors</p> <p>Governors were leaders who ruled parts of the Roman Empire that were far away from the city of Rome. Roman Senators chose these governors. Governors collected taxes and also led the local army.</p>

The Quaestorship in the Roman Republic Francisco Pina Polo,Alejandro Díaz Fernández,2019-09-23 The lack of evidence has proved to be the greatest obstacle involved in reconstructing the quaestorship and has probably discouraged scholars from undertaking a large scale study of the office As a consequence a comprehensive study of the quaestorship has long been a desideratum this book aims to fill this gap in the scholarship The book contains a study of the quaestorship throughout the Roman Republic both in Italy particularly at Rome and in the overseas provinces It includes a history of the office an analysis of its role within the cursus honorum and its larger importance for the Roman constitution as well as the prosopography of all quaestors known during the Republican period based on the literary epigraphic and numismatic evidence The quaestorship was always an office for beginners who aspired to follow a political career and hence served as institutional entrance to the senate Despite their youth quaestors were endowed with functions of great significance at Rome and abroad such as the control and supervision of Rome s finances As the book shows the quaestorship was a prominent and essential part of the Roman administration

Madmen, Intellectuals, and Academic Scribblers Edward J. López, Wayne A. Leighton, 2012-11-21 Madmen Intellectuals and Academic Scribblers presents a simple economic framework for understanding the systematic

causes of political change Wayne A Leighton and Edward J Lopez take up three interrelated questions Why do democracies generate policies that impose net costs on society Why do such policies persist over long periods of time even if they are known to be socially wasteful and better alternatives exist And why do certain wasteful policies eventually get repealed while others endure The authors examine these questions through familiar policies in contemporary American politics but also draw on examples from around the world and throughout history Assuming that incentives drive people's decisions the book matches up three key ingredients ideas rules and incentives with the characters who make political waves madmen in authority such as Franklin Delano Roosevelt and Margaret Thatcher intellectuals like Jon Stewart and George Will and academic scribblers in the vein of Friedrich Hayek and John Maynard Keynes Political change happens when these characters notice holes in the structure of ideas institutions and incentives and then act as entrepreneurs to shake up the status quo

The Bill of Rights , Scientia Iuris Luca Siliquini-Cinelli, 2024-04-18 Law's regulatory reach has grown significantly over the past few decades Yet at the same time law schools and legal professions in Western and Western oriented jurisdictions have undergone an acute crisis How is this possible In this insightful and wide ranging book Luca Siliquini Cinelli argues that these trends are in fact complementary manifestations of a single phenomenon namely that law is and will always be more capable of regulating social interaction without the experiential contribution of legal experts Siliquini Cinelli contends that the separation of law's regulatory function from legal experts is structurally linked to the former's nature and operational dynamics as an intellectual artifact to be used for ordering purposes As a product of the intellect law is a matter of knowledge not experience In fact Siliquini Cinelli holds law's artifactuality voids experience including that of legal experts making it redundant This explains how law can thrive as a regulatory phenomenon while the very places where future legal professionals are formed and those places where it is practised are in crisis To show this Siliquini Cinelli embarks upon a historical philosophical and comparative analysis of law's artifactuality focusing on the teaching study and practise of law as intellectual endeavours from the advent of juristic activities in the Late Roman Republic to current legal pedagogies practices and reforms in Civil and Common law jurisdictions In so doing Siliquini Cinelli employs the Latin phrase *scientia iuris* to explain why and how legal education and practice pursue knowledge at the expense of experience and the serious implications this has for lawyering activities Moving beyond established narratives Siliquini Cinelli argues that *scientia iuris* ought not be reduced to dogmatic analysis *scientia iuris* as *doctrina iuris* Rather *scientia iuris* denotes the knowledge of the law sought by all those who teach study and practise it and which is actualised through a form of legal thinking and argumentation that moves along reason's metaphysical constructivist lines *scientia iuris* as *cognitio iuris* Thus *scientia iuris* is not the prerogative of a few legal scholars rather it lies at the very core of Western legal education and practice broadly understood The relevance of Siliquini Cinelli's original and interdisciplinary analysis is profound and far reaching the crisis that legal education and practice are undergoing is not an isolated or accidental event it

is a consequence of the very ways in which law has been taught studied and practised since Rome Endorsements This richly researched book on the history of scientia iuris is a work on epistemology which argues that the legal model is highly problematic and will eventually be able to function without the intervention of jurists and lawyers Such a thesis is based upon a very detailed knowledge both of philosophy and of the legal primary and secondary sources from Roman to modern times The author is at home with Ancient Greek Latin French German and Italian texts and this means that the research basis for the thesis not only is unusually profound encompassing both the civil and the common law but will make a major contribution to historical jurisprudence to comparative legal history to comparative law in general and to legal theory This is legal scholarship of the highest order Geoffrey Samuel Emeritus Professor of Law Kent Law School In this exceptionally robust and expertly researched new book Luca Siliquini Cinelli presents a provocative thesis He proposes that the experience of legal experts is redundant when it comes to the success of law as a regulatory framework Oscillating between historical material philosophical and literary frames Siliquini Cinelli introduces what he terms law s artifactuality Law s artifactuality as an intellectual phenomenon of social ordering is established through a comparative excavation of legal pedagogy and practice stretching from the Late Roman Republic to contemporary contexts to expose law as a product of the intellect Law is therefore a matter of knowledge not experience Siliquini Cinelli makes a sophisticated philosophical case for scientia iuris as a special form of knowledge that exists distinct from experience This is at the core of the book in claiming that the current detachment of law from legal experts is a symptom of law s essential and enduring artifactuality This detachment is therefore incubated and internal to law s essential nature rather than a consequence of the prophetic shadow of AI This book is a vital and timely intervention in the current crisis gripping legal education and legal practice and their future relation with AI The book is a stellar example of the profound importance of historical and philosophical thinking in law as a means to understanding contemporary phenomena in law Siliquini Cinelli executes his analysis masterfully and brings fundamental insights to the debate on knowledge and experience in law Kimberley Brayson Professor of Critical Jurisprudence Leicester Law School This book is not for the faint hearted or the narrow minded It is not for the narrow minded as it paints on the broadest of canvasses from the Late Roman Republic to the Middle Ages to the Methodological Legal Positivism that characterises modernity It is not for the faint hearted as it makes the bold claim that law does not need lawyers The reason law does not need lawyers is that law is based on knowledge not experience If Luca Siliquini Cinelli is right then Oliver Wendell Holmes is wrong The stakes couldnot be higher Joshua Neoh Associate Professor of Law ANU College of Law An important book it represents a significant contribution to legal philosophy and historical jurisprudence Its strengths are found in its philosophical analysis its link age of historical and contemporary issues and its challenge to conventional legal thought This work is particularly pertinent for those interested in the future of legal education and the influence of AI on law and legal reasoning Michael Palmer Professor SOAS and Institute of Advanced Legal Studies University of London Cheng Yu
