sociology economics labor and international development scholars and students in North America and worldwide *Asian Competitors: Marketing For Competitiveness In The Age Of Digital Consumers* Philip Kotler, Hermanwan Kartajaya, Den Huan Hooi, 2019-03-15 Today's dynamic and uncertain environment has contributed to the changing nature of markets. In order for companies to keep up they will need to embark on new wave marketing to ride the wave of opportunities provided by the changes in the environment such as the digital revolution. This is critical all over the world but none more so than in Asia. Asia is not only the world's biggest market but also the fastest growing. It is therefore essential for marketers to understand the dynamics of Asian companies and what they have to offer to the wider world. This book analyzes competitive companies from 18 Asian countries that have successfully practiced new wave marketing and in so doing provide invaluable lessons that others may find useful. Comprehensive case studies are used not only to describe how some of Asia's best companies compete but also to analyze the concepts of new wave marketing; their actions are based on this. This book is unique in its depth and breadth of cases from companies in the ASEAN region to North East Asia including Mongolia and SAARC. The authors of this book, Professor Philip Kotler (arguably the Father of Modern Marketing), Hermawan Kartajaya from Indonesia and Hooi Den Huan from Singapore, are all experts in their field and have previously produced other bestsellers. This book, with its focus on real life examples of competitive Asian companies in the age of digitalization, complements the principles and theoretical frameworks of new wave marketing that are detailed in its sister book. Together these books provide a comprehensive picture of the changing Asian marketing landscape. Business Periodicals Index, 2004

The Role of Corporate Sustainability in Asian Development Gilbert Lenssen, Jay Hyuk Rhee, Fabien Martinez, 2017-05-11 This book examines the challenges faced by seven multinational companies: Intel, Lenovo, Samsung Electronics, ZTE, BMW, Hyundai Motor Company, Mahindra, and Mahindra, in their endeavour to contribute to the economic, environmental, and social development of Asia. The lessons learned from the examination of these business practices may directly contribute to an increase in the practice of sustainable management and may, as such, contribute to the positive economic, environmental, and social impact of companies in this region. The cases are highly relevant for management theoreticians seeking to deepen our understanding of corporate sustainability in an area where scholars, practitioners, and policy makers can expect new questions, problems, and challenges in the years ahead.
