**Carrier Strike Fleet after 1945** David Hobbs,2015-10-30 A comprehensive study of the bittersweet post WWII history of British naval aviation will become a standard reference for its subject Firetrench In 1945 the most powerful fleet in the Royal Navy s history was centered on nine aircraft carriers This book charts the post war fortunes of this potent strike force its decline in the face of diminishing resources its final fall at the hands of uncomprehending politicians and its recent resurrection in the form of the Queen Elizabeth class carriers the largest ships ever built for the Royal Navy After 1945 experts prophesied that nuclear weapons would make conventional forces obsolete but British carrier borne aircraft were almost continuously employed in numerous conflicts as far apart as Korea Egypt the Persian Gulf the South Atlantic East Africa and the Far East often giving successive British Governments options when no others were available In the process the Royal Navy invented many of the techniques and devices crucial to modern carrier operations angled decks steam catapults and deck landing aids while also pioneering novel forms of warfare like helicopter borne assault and tactics for countering such modern plagues as insurgency and terrorism This book combines narratives of these poorly understood operations with a clear analysis of the strategic and political background benefiting from the author s personal experience of both carrier flying and the workings of Whitehall It is an important but largely untold story of renewed significance as Britain once again embraces carrier aviation Makes a timely and welcome appearance will make compelling reading for those with serious concern for our naval affairs St Andrews in Focus     Hawker's Secret Cold War Airfield Christopher Budgen,2020-11-23 A military aviation expert chronicles the decades of breathtaking innovation that took place at Britain s secret airbase In 1951 Hawker Aircraft started using Dunsfold Aerodrome to test its new jet projects The Sea Hawk was followed by the superlative Hunter Then came a radical new engine design for an aircraft capable of vertical take off and landing While nay sayers claimed it would never work the Harrier proved them wrong becoming a vital asset during the Falklands War Then came the Hawk which after completion of the RAF requirement was sold into air arms across the world including the US Navy It was

an incredible achievement for a UK design British Aerospace then brought forth its upgraded Harrier the Harrier GR 5 One might expect that this prolific output was the result of some massive industrial plant in the Midlands rather than an isolated aerodrome tucked in the rural hinterland of south Surrey Shrouded in secrecy for most of its life Dunsfold has largely escaped the notice of the general public This volume shines a light on the remarkable work carried out there *BRE Digest*,2006     **The National Union Catalog** Library of Congress,1953 Constitutes the quinquennial cumulation of the National union catalog Motion pictures and filmstrips     **1989-1990 Catalog of American National Standards** American National Standards Institute,1989     **American Foundryman** ,1949     The Official Railway Equipment Register ,1964
