The Sinking Middle Class David Roediger, 2022-06-21 The Sinking Middle Class challenges the save the middle class rhetoric that dominates our political imagination The slogan misleads us regarding class nation and race Talk of middle class salvation reinforces myths holding that the US is a providentially middle class nation Implicitly white the middle class becomes viewed as unheard amidst supposed concerns for racial justice and for the poor Roediger shows how little the US has been a middle class nation The term seldom appeared in US writing before 1900 Many white Americans were self employed but this social experience separated them from the contemporary middle class of today overwhelmingly employed and surveilled Today s highly unequal US hardly qualifies as sustaining the middle class The idea of the US as a middle class place required nurturing Those doing that ideological work from the business press to pollsters to intellectuals celebrating the results of free enterprise gained little traction until the Depression and Cold War expanded the middle class brand Much later the book s sections on liberal strategist Stanley Greenberg detail saving the middle class entered presidential politics Both parties soon defined the middle class to include over 90% of the population precluding intelligent attention to the poor and the very rich Resurrecting radical historical critiques of the middle class Roediger argues that middle class identities have so long been shaped by debt anxiety about falling and having to sell one s personality at work that misery defines a middle class existence as much as fulfillment

Punishing the Poor Loïc Wacquant, 2009-05-22 The punitive turn of penal policy in the United States after the acme of the Civil Rights movement responds not to rising criminal insecurity but to the social insecurity spawned by the fragmentation of wage labor and the shakeup of the ethnoracial hierarchy It partakes of a broader reconstruction of the state wedding restrictive workfare and expansive prisonfare under a philosophy of moral behaviorism This paternalist program of penalization of poverty aims to curb the urban disorders wrought by economic deregulation and to impose precarious employment on the postindustrial proletariat It also erects a garish theater of civic morality on whose stage political elites can orchestrate the public vituperation of deviant figures the teenage welfare mother the ghetto street thug and the roaming sex predator and close the legitimacy deficit they suffer when they discard the established government mission of social and economic protection By bringing developments in welfare and criminal justice into a single analytic framework attentive to both the instrumental and communicative moments of public policy *Punishing the Poor* shows that the prison is not a mere technical implement for law enforcement but a core political institution And it reveals that the capitalist revolution from above called neoliberalism entails not the advent of small government but the building of an overgrown and intrusive penal state deeply injurious to the ideals of democratic citizenship Visit the author's website

Privilege and Anxiety Hagen Koo, 2022-07-15 In *Privilege and Anxiety* Hagen Koo examines what has happened to the Korean middle class in the era of neoliberal globalization and demonstrates that global economic change brought more profound changes than mere economic decline and shrinking size to this class Globalization has inserted an axis of polarization into the middle class separating a small minority that benefits from the globalized economy from the large majority that suffers from it This internal differentiation generates a challenging dynamic within Korean society as the newly affluent seek to distinguish themselves from the rest of the middle class to establish a new privileged class position *Privilege and Anxiety* explores how these tensions play out in three areas consumption and lifestyle residential differentiation and education In all three areas the dominant orientation of the affluent middle class is to preserve their newfound privilege and to pass it onto their children Their new class practices Koo argues bring great anxiety to both the winners and losers of neoliberal globalization

Human Rights in the Maya

Region Pedro Pitarch, Shannon Speed, Xochitl Leyva-Solano, 2008-12-05 In recent years Latin American indigenous groups have regularly deployed the discourse of human rights to legitimate their positions and pursue their goals Perhaps nowhere is this more evident than in the Maya region of Chiapas and Guatemala where in the last two decades indigenous social movements have been engaged in ongoing negotiations with the state and the presence of multinational actors has brought human rights to increased prominence In this volume scholars and activists examine the role of human rights in the ways that states relate to their populations analyze conceptualizations and appropriations of human rights by Mayans in specific localities and explore the relationship between the individualist and universal tenets of Western derived concepts of human rights and various Mayan cultural understandings and political subjectivities The collection includes a reflection on the effects of truth finding and documenting particular human rights abuses a look at how Catholic social teaching validates the human rights claims advanced by indigenous members of a diocese in Chiapas and several analyses of the limitations of human rights frameworks A Mayan intellectual seeks to bring Mayan culture into dialogue with western feminist notions of women's rights while another contributor critiques the translation of the United Nations Declaration of Human Rights into Tzeltal an indigenous language in Chiapas Taken together the essays reveal a broad array of rights related practices and interpretations among the Mayan population demonstrating that global local state interactions are complex and diverse even within a geographically limited area So too are the goals of indigenous groups which vary from social reconstruction and healing following years of violence to the creation of an indigenous autonomy that challenges the tenets of neoliberalism Contributors Robert M Carmack Stener Ekern Christine Kovic Xochitl Leyva Solano Juli n L pez Garc a Irma Otzoy Pedro Pitarch Ivaro Reyes Victoria Sanford Rachel Sieder Shannon Speed Rodolfo Stavenhagen David Stoll Richard Ashby Wilson
