evidence of early English drama music ceremonial dance and other forms of communal public entertainment in Britain before 1642 together with the necessary interpretive introductions and notes to explicate the materials for the reader Shropshire in two volumes is the eleventh publication in the series In the introduction Alan Somerset surveys the social and economic history of each major borough and provides a commentary on the major issues raised in the documents He discusses travelling performers routes the places they performed and the remarkable public exhibitions of high wire artists camels bears and giants The records for this county are rich and varied providing new detail about local playing and festivities From Shrewsbury for example comes the complete documentation of a unique semi circular outdoor amphitheatre The documents reveal much from robbery and riots to the sometimes acrimonious disputes that show the growing Puritan opposition to sports which attempted to combat an equally stubborn affection for traditional customs These records are an invaluable addition to the scholarship of early drama establishing as they do part of the total context of the great drama of Shakespeare his predecessors and his contemporaries

Sacra Pagina: The Gospel of John Francis J. Moloney, SDB, 2023-06-13 No other book of the New Testament has attracted as much attention from commentators as the Fourth Gospel It has stirred minds hearts and imaginations from Christianity's earliest days In The Gospel of John Francis Moloney unfolds the identifiable point of view of this unique Gospel narrative and offers readers heirs to its rich and widely varied interpretative traditions relevance for their lives today The Gospel of John's significance for Christianity has been obvious from the time of Irenaeus It was also fundamental in the emergence of Christian theology especially in the trinitarian and christological debates that produced the great ecumenical Councils from Nicaea to Chalcedon What sets this commentary on the Fourth Gospel apart from others is Moloney's particular attention to the narrative design of the Gospel story He traces the impact the Johannine form of the Jesus story has made on readers and explicates the way in which the author has told the story of Jesus Through this he demonstrates how the Gospel story articulates a coherent theology christology and ecclesiology
