Sociology David M. Newman, 2018-07-26 This new Brief Sixth Edition of David Newman's text is the streamlined version of Sociology Exploring the Architecture of Everyday Life with the same goal to be a textbook that in the author's words reads like a real book Newman shows to see the unfamiliar in the familiar to step back and see organization and predictability in their take for granted personal experiences Newman uses the metaphors of architecture and construction to help students understand that society is not something that exists out there independently of themselves it is a human creation that is planned maintained or altered by individuals Instead of surveying every subfield in sociology this text focuses on the structural features of society the social construction of self and identity and social inequality in the context of social institutions The new edition includes examples and analysis of contemporary events and trends including The changes in our national politics brought about by the 2016 presidential election Increasing societal attention paid to fatal encounters between police and unarmed people of color or incidents of sexual harassment and assault School shootings and the debates over gun ownership The continued dramatic growth of communication technology particularly social networking sites

The New Education Cathy N. Davidson, 2017-09-05 A leading educational thinker argues that the American university is stuck in the past and shows how we can revolutionize it for our era of constant change Our current system of higher education dates to the period from 1865 to 1925 It was in those decades that the nation's new universities created grades and departments majors and minors all in an attempt to prepare young people for a world transformed by the telegraph and the Model T As Cathy N Davidson argues in The New Education this approach to education is wholly unsuited to the era of the gig economy From the Ivy League to community colleges she introduces us to innovators who are remaking college for our own time by emphasizing student centered learning that values creativity in the face of change above all The New Education ultimately shows how we can teach students not only to survive but to thrive amid the challenges to come The Underrepresentation of Women in Science: International and Cross-Disciplinary Evidence and Debate Stephen J. Ceci, Wendy M. Williams, Shulamit Kahn, 2018-04-20 There is no shortage of articles and books exploring women's underrepresentation in science Everyone is interested academics politicians parents high school girls and boys women in search of college majors administrators working to accommodate women's educational interests the list goes on But one thing often missing is an evidence based examination of the problem uninfluenced by personal opinions accounts of lived experiences anecdotes and the always encroaching inputs of popular culture This is why this special issue of Frontiers in Psychology can make a difference In it a diverse group of authors and researchers with even more diverse viewpoints find themselves united by their empirical objective approaches to understanding women's underrepresentation in science today The questions considered within this special issue span academic disciplines methods levels of analysis and nature of analysis what these articles share is their scholarly evidence based approach to understanding a key issue of our time Shifting to Digital James A.

10 to 25 David Yeager,2024-08-06 NATIONAL BESTSELLER Acclaimed developmental psychologist David Yeager reveals the new science of motivating young people ages ten through twenty five in this groundbreaking book that is a must read for managers parents educators coaches and mentors everywhere Required reading for anyone who aspires to be a wise influence on the young people they care about Angela Duckworth One of the most fascinating and important books of the past decade It will change millions of lives Carol Dweck This engaging data driven book is filled with practical insights Adam Grant Imagine a world in which Gen Xers millennials and boomers interact with young people in ways that leave them feeling inspired enthusiastic and ready to contribute rather than disengaged outraged or overwhelmed That world may be closer than you think In this book based on cutting edge research psychologist David Yeager explains how to stop fearing young people s brains and hormones and start harnessing them Neuroscientists have discovered that around age ten puberty spurs the brain to crave socially rewarding experiences such as pride admiration and respect and to become highly averse to social pain such as humiliation or shame As a result young people are subtly reading between the lines of everything we say trying to interpret the hidden implications of our words to find out if we are disrespecting or honoring them Surprisingly this sensitivity to status and respect continues into the mid twenties 10 to 25 helps adults develop an ear for the difference between the right and wrong way to respect young people and avoid frustrating patterns of miscommunication and conflict Yeager explains how to adopt what he terms the mentor mindset which is a leadership style that s attuned to young people s need for status and respect Anyone can adopt the mentor mindset by following a few highly effective and easy to learn practices such as validating young people s perspectives rather than dismissing them asking them questions rather than telling them what to do being transparent about your beliefs and goals rather than assuming that they will accurately guess

your thoughts and holding them to high standards rather than coddling them Yeager's scientific experiments have shown these practices reduce a wide variety of behavior problems including school dropout unhealthy eating stress purposelessness mental health problems and more One of the biggest misconceptions about mentoring is that it takes up too much time On the contrary those who use the mentor mindset end up with more time Through back and forth conversations young people feel empowered and managers can transfer responsibility to them Young people in this age group are poised to learn grow and accomplish incredible things if only we can tap into the basic neurobiological systems that drive their motivation and behavior An essential read for anyone who interacts with young people 10 to 25 is a groundbreaking book that offers long term strategies to help nurture well adjusted independent accomplished young people who contribute to society in positive ways all while making our own lives easier *Backpacker*, 2007-09 Backpacker brings the outdoors straight to the reader's doorstep inspiring and enabling them to go more places and enjoy nature more often The authority on active adventure Backpacker is the world's first GPS enabled magazine and the only magazine whose editors personally test the hiking trails camping gear and survival tips they publish Backpacker's Editors Choice Awards an industry honor recognizing design feature and product innovation has become the gold standard against which all other outdoor industry awards are measured
