Sexual Life in Sweden Hans Zetterberg,2021-10-14 Now available in English Sexual Life in Sweden is a classic piece of sex research by one of Sweden s most distinguished social scientists Sponsored by the Royal Commission on Sex Education more than thirty years ago it remains the only study of sexual behavior in a randomly selected adult population sample ever funded by a government Because an astonishing response rate was achieved 91 percent during the course of Zetterberg s research the claim that Sweden is one of the few countries where generalizations about national sexual behavior can be made may be stated with confidence Zetterberg s study matches the gender of interviewers to that of subjects From a theoretical perspective Zetterberg analyzes the change in Sweden from a restrictive to a contraceptive society The study makes it clear that with over 1 000 acts of intercourse for every live birth 90 percent of sexual activity between consenting adults in modern Sweden does not result simply for procreation Nevertheless the research yields a picture of a highly responsible society Zetterberg explores the emergence of two powerful new norms when having sex you must use contraception and when in an existing sexual relationship you must not start another one He also examines the issue of abortion as part of a concept of social justice The author compares the behavior of those who experience an unwanted pregnancy with those who do not and explains that abortion is seen by Swedes as part of the provision of the welfare and social justice system Included is an examination of the sexual behavior of young people the age of their first sexual experience the circumstances surrounding it whether positive parental involvement in their children s lives has any influence on their sexual conduct and sex education programs in the schools This translation of Zetterberg s study has been prepared by British sociologist Graham Fennell who also authored a new introduction positioning Zetterberg s work in the history of sex research and comparing its findings with contemporary studies in Scandinavia Western Europe and North America In light of the ongoing controversies about sex education its conclusions remain relevant to policy discussions today

Perverse Romanticism Richard C. Sha, 2009-01-12 Richard C Sha's revealing study considers how science shaped notions of sexuality reproduction and gender in the Romantic period Through careful and imaginative readings of various scientific texts the philosophy of Immanuel Kant and Longinus and the works of such writers as William Blake Percy Bysshe Shelley Mary Wollstonecraft and Lord Byron Sha explores the influence of contemporary aesthetics and biology on literary Romanticism Revealing that ideas of sexuality during the Romantic era were much more fluid and undecided than they are often characterized in the existing scholarship Sha's innovative study complicates received claims concerning the shift from perversity to perversion in the nineteenth century He observes that the questions of perversity or purposelessness became simultaneously critical in Kantian aesthetics biological functionalism and Romantic ideas of private and public sexuality The Romantics then sought to reconceptualize sexual pleasure as deriving from mutuality rather than from the biological purpose of reproduction At the nexus of Kantian aesthetics literary analysis and the history of medicine *Perverse Romanticism* makes an important contribution to the study of sexuality in the long eighteenth century

Horrifying Sex Ruth Bienstock Anolik, 2007-07-16 The Gothic moment in literary history arose in the age of the Enlightenment and the Gothic fascination with the unknown reflects the Enlightenment's response to the limits of reason Traditionally the emblem of the unknown that lurks in the Gothic is the supernatural the monstrous and the inhuman Often overlooked is the observation that Gothic texts are also haunted by figures that represent the mystery of sexuality This collection of essays sharpens that observation and asserts that Gothic anxieties about sexuality are likewise rooted in fear of the unknown represented by sexual practices and desires that either lie hidden or deviate from cultural norms The first three sections refer to popular as well as marginalized Gothic texts to portray the three prototypes of sexual deviance the female sexual Other in *The Fatal Woman* the male sexual Other in *The Satanic Male* and the homosexual Other in *Homosexual Horror* The fourth section covers literary works that celebrate sexual difference and question the idea that the sexually deviant is socially Other

Sexuality, Maternity, and (Re)productive Futures Kazue Harada, 2021-11-29 Contemporary Japanese female speculative fiction writers of novels and manga employ the perspectives of aliens cyborgs and bioengineered entities to critique the social realities of women particularly with respect to reproduction which they also re imagine in radical ways Harada examines the various meanings of reproduction in light of feminist and queer studies and offers close readings of

works by novelists Murata Sayaka, Haruki Murakami, and manga artists Hagio Moto and Shirai Yumiko. Scholarship of SF in Japanese studies has primarily focused on male authors but this book shows not only how women writers have created a space in SF and speculative fiction but how their work can be seen as a response to particular social norms and government policies.

Trans People in Higher Education Genny Beemyn, 2019-01-31 Honorable Mention 2019 Foreword INDIES Book of the Year Award in the LGBTQ category While more trans students, faculty and staff have come out on US college campuses today than ever before, many still report enduring harassment and discrimination. Others avoid disclosing their gender identity because they do not feel safe or comfortable at their schools. This groundbreaking book is the first to address their experiences in a single volume. Genny Beemyn brings together personal narratives and original research to give readers both individual and large scale perspectives which provide unprecedented insight into the experiences of trans people in higher education. These contributions reveal that despite an improving environment, trans people continue to face widespread interpersonal and institutional opposition on campuses across the country. Some of the first published research focusing on nonbinary trans undergraduates and trans graduate students is included here in addition to the most comprehensive research to date of trans students at women's colleges and of trans academics. *Trans People in Higher Education* also examines the sexual health of trans students, the treatment of trans people by individuals with institutional authority and the strategies and lessons learned from one college that successfully became more trans inclusive.

Sexual Violence as a Weapon of War? Maria Eriksson Baaz, Professor Maria Stern, 2013-05-09 All too often in conflict situations rape is referred to as a weapon of war, a term presented as self explanatory through its implied storyline of gender and warring. In this provocative but much needed book, Eriksson Baaz and Stern challenge the dominant understandings of sexual violence in conflict and post conflict settings. Reading with and against feminist analyses of the interconnections between gender, warring, violence and militarization, the authors address many of the thorny issues inherent in the arrival of sexual violence on the global security agenda. Based on original fieldwork in the Democratic Republic of the Congo as well as research material from other conflict zones, *Sexual Violence as a Weapon of War* challenges the recent prominence given to sexual violence, bravely highlighting various problems with isolating sexual violence from other violence in war. A much anticipated book by two acknowledged experts in the field on an issue that has become an increasingly important security, legal and gender topic.
