*Foundations of Finance* , 2004 *Financial Innovation and Engineering in Islamic Finance* Samir Alamad, 2017-04-13 This book provides two important contributions to

existing theories in the financial innovation literature First it extends the existing literature of innovation orientation to a completely new field and construct that is based on a religious imperative as a framework within which financial innovation is constrained It explains how an innovation orientation in IFIs can be directed within religious rules which indicates that innovation orientation in IFIs is a learning philosophy Second the book introduces and examines the plasticity of Shariah as a shared boundary object and its dynamic role in managing tension and conflicting values in the financial innovation process Furthermore building on the empirical results the study illustrates the insights that each theoretical lens affords into practices of collaboration and develops a novel analytical framework for understanding religious orientation towards financial innovation This practical contribution of the developed framework could form the basis for a standardised framework for the Islamic finance industry The book concludes by noting the policy and managerial implications of its findings and provides directions for further research

*Household Finance* Richard Deaves,2024 *Household Finance* An Introduction to Individual Financial Behavior speaks to both how people should and how people actually do make financial decisions and how these financial decisions contribute to and detract from their well being Households must plan over long but finite horizons have important nontraded assets notably human capital hold illiquid assets particularly housing face constraints on the ability to borrow and are subject to complex taxation Some households manage these goals and challenges independently while still others delegate portfolio management Household financial problems have many special features that differ from firms investors or the functioning of markets Author Richard Deaves covers the broad range of choices and

goals in household finance both in the normative sense i.e. what is best based on conventional financial theory and in the positive sense i.e. what is actually done based on observing actual behavior. While modern finance builds models of behavior and markets based on strong assumptions such as the rationality of decision makers, behavioral finance is based on the view that sometimes people behave in a less than fully rational fashion when making financial decisions. Deaves addresses important issues and puzzles in the field such as financial illiteracy, whether education and advice can improve outcomes, intertemporal consumption optimization, consumption smoothing, optimal dynamic risk taking, the stock market participation puzzle, the credit card debt puzzle, anomalous insurance decisions, mortgage choices, skewness preference, investments driven by availability and attention, local and home bias, the disposition effect, optimal pension design, and improving outcomes through nudging in a thoroughly international approach.

Public Finance and Financial Administration Bharati Garg, 2025-04-24. This book offers a comprehensive exploration of different aspects of public finance and its administrative practices across different countries. Based on a comprehensive review of existing literature, it combines theoretical exploration and practical case studies of developed and developing countries. Part I of this volume provides a basic understanding of the concept of public finance. Part II examines the role of budget with a detailed discussion of budgetary cycles in the U.S.A., Brazil, and India. It also provides an in-depth coverage of performance budgeting practices focusing on the OECD countries. Part III focuses on intergovernmental federal fiscal relations with a special focus on India along with the Ministries of Finance in the U.S.A., the U.K., and India. Part IV delves into audit systems and Supreme Audit Institutions, presenting case studies of France, Germany, the U.S.A., the U.K., and India. It also includes studies on the latest national and international reports to support the findings. This book will be useful to students, researchers, and teachers of Public Administration, Public Policy, Public Finance, Economics, and Management. It will also be an invaluable resource for professionals and policymakers as it shall help strengthen their conceptual understanding of the subject.
