Education

"The appreciation of the arts makes us human." Do you agree?

What you need a good education to succeed in
business?

Humans are the only beings capable of expressing free will and creativity, and are the only ones with the ability to create from imagination alone. Though we are busy discussing the appreciation of the arts as a frivolous pastime or an exclusive activity within the confines of the artistic community, it is what makes us human as it defines the human ingenuity to create. The appreciation of the arts allows us to reflect on the human condition as it provides social commentary, and allows us to express individuality as well. At the same time, it creates a mass cultural identity that allows us to connect with one another, thus forming cultural communities that are grounded with one another, thus forming cultural identity that defines what separates us from the rest of the world. Therefore, the appreciation of the arts is definitely what separates us from the rest of the world. Some may dismiss the appreciation of the arts as a frivolous pastime, but it is a pastime that is essential to our humanity.

the passport to your future". This quote may be familiar to many, showing how vital for one to build a bright future and attain success in life. With a traditional education one gets, the higher the pay and the better the standard of living. In a modern society, this statement may hold entirely true especially with the aid of an extensive social platform and many other unconventional ways that do not act as a barrier in their trade. Even though debatable, I still resonate with the statement that education is the passport to your future. Below we will discuss how education can help in third world countries to break the vicious cycle of poverty and how education might not be that necessary in some developed countries.
