Intersecting Roles of Education in Conflict IREC framework for use in the research development production distribution and dissemination of textbooks and learning materials The framework illustrates these three potentially overlapping roles by mapping the complex educational contexts of conflict affected societies and considering how textbooks learning materials and education systems more broadly may simultaneously operate within these various roles Country case studies from Asia Europe Africa and the Middle East are used to analyze primary and secondary school textbook development content and application from a variety of approaches that articulate conflict as protracted and or socio political violence The breadth of case studies shows how conflict discourse circulates in educational systems and materials in a wide range of contexts indicating that the complexity of the relationship between textbooks and conflict is not unique to one culture geographic region or type of conflict

How Books Came to America John Hruschka, 2015-06-17 Anyone who pays attention to the popular press knows that the new media will soon make books obsolete But predicting the imminent demise of the book is nothing new At the beginning of the twentieth century for example some critics predicted that the electro mechanical phonograph would soon make books obsolete Still despite the challenges of a century and a half of new media books remain popular with Americans purchasing more than eight million books each day In *How Books Came to America* John Hruschka traces the development of the American book trade from the moment of European contact with the Americas through the growth of regional book trades in the early English colonial cities to the more or less unified national book trade

that emerged after the American Civil War and flourished in the twentieth century He examines the variety of technological historical cultural political and personal forces that shaped the American book trade paying particular attention to the contributions of the German bookseller Frederick Leypoldt and his journal Publishers Weekly Unlike many studies of the book business *How Books Came to America* is more concerned with business than it is with books Its focus is on how books are manufactured and sold rather than how they are written and read It is nevertheless the story of the people who created and influenced the book business in the colonies and the United States Famous names in the American book trade Benjamin Franklin Robert Hoe the Harpers Henry Holt and Melvil Dewey are joined by more obscure names like Joseph Glover Conrad Beissel and the aforementioned Frederick Leypoldt Together they made the American book trade the unique commercial institution it is today
