Lee,2013-08-13 In this book the author an investigative journalist

traces the social history of marijuana from its origins to its emergence in the 1960s as a defining force in an ongoing culture war. He describes how the illicit marijuana subculture overcame government opposition and morphed into a multibillion dollar industry. In 1996, Californians voted to legalize marijuana for medicinal purposes. Similar laws have followed in several other states but not without antagonistic responses from federal, state, and local law enforcement. The author draws attention to underreported scientific breakthroughs that are reshaping the therapeutic landscape; medical researchers have developed promising treatments for cancer, heart disease, Alzheimer's, diabetes, chronic pain, and many other conditions that are beyond the reach of conventional cures. This book is an examination of the medical, recreational, scientific, and economic dimensions of the world's most controversial plant.

A Continuous Struggle Garrett Felber, 2025-05-06. The first biography of the revolutionary political prisoner who laid the foundation for contemporary abolitionist struggles and Black anarchism. *A Continuous Struggle* is a political biography of one of the most important revolutionary figures of the twentieth century in the United States. Martin Sostre (1923-2015) was a Black Puerto Rican from East Harlem who became a politicized prisoner and jailhouse lawyer, winning cases in the early 1960s that helped secure the constitutional rights of incarcerated people. He opened one of the country's first radical Black bookstores and was scapegoated and framed by police and the FBI following the Buffalo rebellion of 1967. He was sentenced by an all-white jury to thirty-one to forty-one years. Throughout his nine-year imprisonment, Sostre transformed himself and the revolutionary movements he was a part of, eventually identifying as a revolutionary anarchist and laying the foundation for contemporary Black anarchism. During that time, he engaged in principled resistance to strip frisks for which he was beaten eleven times, raising awareness about the routinized sexual assault of imprisoned people. The decade-long Free Martin Sostre movement was one of the greatest and most improbable defense campaign victories of the Black Power era, alongside those to liberate Angela Davis and Huey Newton. Although Sostre receded from public view after his release in 1976, he lived another four decades of committed struggle as a tenant organizer and youth mentor in New York and New Jersey. Throughout his long life, Martin Sostre was a jailhouse lawyer, revolutionary bookseller, yogi, mentor, and teacher, anti-rape organizer, housing justice activist, and original political thinker. The variety of strategies he used and terrains on which he struggled emphasize the necessity and possibility of multifaceted and continuous struggle against all forms of oppression in pursuit of an egalitarian society founded on the principles of maximum human freedom, spirituality, and love.

Assessing Contexts of Learning Susanne Kuger, Eckhard Klieme, Nina Jude, David Kaplan, 2016-12-05. This volume brings together educational effectiveness research and international large-scale assessments, demonstrating how the two fields can be applied to inspire and improve each other and providing readers direct links to instruments that cover a broad range of topics and have been shown to work in more than 70 countries. The book's initial chapters introduce and summarize recent discussions and developments in the conceptualization, implementation, and evaluation of international large-scale context assessments and provide an outlook on possible future developments.

Subsequently three thematic sections Student Background Outcomes of Education Beyond Achievement and Learning in Schools each present a series of chapters that provide the conceptual background for a wide range of important topics in education research policy and practice Each chapter defines a conceptual framework that relates recent findings in the educational effectiveness research literature to current issues in education policy and practice These frameworks were used to develop interesting and relevant indicators that may be used for meaningful reporting from international assessments other cross cultural research or national studies Using the example of one particular survey the Programme for International Student Assessment PISA 2015 this volume links all theoretical considerations to fully developed questionnaire material that was field trailed and evaluated in questionnaires for students and their parents as well as teachers and principals in their schools The primary purposes of this book are to inform readers about how education effectiveness research and international large scale assessments are already interacting to inform research and policymaking to identify areas where a closer collaboration of both fields or input from other areas could further improve this work to provide sound theoretical frameworks for future work in both fields and finally to relate these theoretical debates to currently available and evaluated material for future context assessments
