Caught in the Act Cyril Julie, Lorna Holtman, Charles R. Smith, 2019-12-11 The research reported in *Caught in the Act* draws together the insights gained from a continuous professional development initiative for high school mathematics teachers teaching in low socio economic status and socially challenged environments in South Africa The chapters show the possibilities for enhancing achievement in school mathematics if a strength based approach is adopted to develop teaching with teachers and when their concerns are taken seriously The book demonstrates that the ecological relevance fitness for the context in which teachers are teaching of the goods developed and distributed by initiatives should be a major consideration to offer hope for sustainable implementation to improve school mathematics education The book is of interest to mathematics teachers school leaders mathematics curriculum advisors policy makers and researchers [Women in Wildlife Science](#) Carol L. Chambers, Kerry L. Nicholson, 2022-11-01 The first book to address the challenges and opportunities for women especially from underrepresented communities in wildlife professions *Women in Wildlife Science* is dedicated to the work of promoting equity diversity and inclusion in wildlife conservation and management Editors Carol L Chambers and Kerry L Nicholson collaborate with a diverse team of authors to analyze the status and celebrate the achievements of women in wildlife science They share proven models and propose new methods to increase the inclusion of women in wildlife professions based on an intersectional framework Centering perspectives from LGBTQ people women of color and members of other marginalized communities this is a groundbreaking and vitally important resource Covering academic and professional spheres *Women in Wildlife Science* draws on enlightening personal stories and peer reviewed scientific literature unavailable anywhere else to explain the challenges women face in the field of wildlife conservation and management The contributors tackle pivotal issues from recruitment into academic programs to hiring practices and ways to support career advancement in federal state local tribal and private sectors Each chapter includes practical advice and original exercises constructed to help administrators educators managers allies and mentors move intentions into action This pragmatic guide will help to ensure a more diverse just and equitable future for a workforce dedicated to preserving wildlife and the whole of the natural world [The State of the System](#) Paul W. Bennett, 2020-09-23 Over the last fifty years Canada's public schools have been absorbed into a modern education system that functions much like Max Weber's infamous iron cage Crying out for democratic school level reform the system is now a centralized bureaucratic fortress that every year becomes softer on standards for students less accessible to parents further out of touch with communities and surprisingly unresponsive to classroom teachers Exploring the nature of the Canadian education order in all its dimensions *The State of the System* explains how public schools came to be so bureaucratic confronts the critical issues facing kindergarten to grade 12 public schools in all ten provinces and addresses the need for systemic reform Going beyond a diagnosis of the stresses strains and ills present in the system Paul Bennett proposes a bold plan to re engineer schools on a more human scale as the

first step in truly reforming public education In place of school consolidation and managerialism one size fits all uniformity limited school choice and the success for all curriculum Bennett advocates for a new set of priorities decentralize school governance deprogram education ministries and school districts listen to parents and teachers and revitalize local education democracy Tackling the thorny issues besetting contemporary school systems in Canada The State of the System issues a clarion call for more responsive engaged and accountable public schools

Teaching and Learning Secondary School Mathematics Ann Kajander, Jennifer Holm, Egan J Chernoff, 2018-10-24 This volume brings together recent research and commentary in secondary school mathematics from a breadth of contemporary Canadian and International researchers and educators It is both representative of mathematics education generally as well as unique to the particular geography and culture of Canada The chapters address topics of broad applicability such as technology in learning mathematics recent interest in social justice contexts in the learning of mathematics as well as Indigenous education The voices of classroom practitioners the group ultimately responsible for implementing this new vision of mathematics teaching and learning are not forgotten Each section includes a chapter written by a classroom teacher making this volume unique in its approach We have much to learn from one another and this volume takes the stance that the development of a united vision supported by both research and professional dialog provides the first step

Assessing Contexts of Learning Susanne Kuger, Eckhard Klieme, Nina Jude, David Kaplan, 2016-12-05 This volume brings together educational effectiveness research and international large scale assessments demonstrating how the two fields can be applied to inspire and improve each other and providing readers direct links to instruments that cover a broad range of topics and have been shown to work in more than 70 countries The book's initial chapters introduce and summarize recent discussions and developments in the conceptualization implementation and evaluation of international large scale context assessments and provide an outlook on possible future developments Subsequently three thematic sections Student Background Outcomes of Education Beyond Achievement and Learning in Schools each present a series of chapters that provide the conceptual background for a wide range of important topics in education research policy and practice Each chapter defines a conceptual framework that relates recent findings in the educational effectiveness research literature to current issues in education policy and practice These frameworks were used to develop interesting and relevant indicators that may be used for meaningful reporting from international assessments other cross cultural research or national studies Using the example of one particular survey the Programme for International Student Assessment PISA 2015 this volume links all theoretical considerations to fully developed questionnaire material that was field tested and evaluated in questionnaires for students and their parents as well as teachers and principals in their schools The primary purposes of this book are to inform readers about how education effectiveness research and international large scale assessments are already interacting to inform research and policymaking to identify areas where a closer collaboration of both fields or input from other areas could further improve this work to provide sound theoretical frameworks for future work in both fields and finally to relate these theoretical debates to currently available and evaluated material for future context assessments **Child**

Development at the Intersection of Race and SES , 2019-07-02 Child Development at the intersection of Race and SES Volume 57 in the Advances in Child Development and Behavior series presents theoretical and empirical scholarship illuminating how race ethnicity and socioeconomic status intersect to shape children's development and developmental contexts Important chapters in this new release include the Implications of Intersecting Socioeconomic and Racial Identities for Academic Achievement and Well being The home environment of low income Latino children Challenges and opportunities Profiles of race ethnicity and socioeconomic status Implications for ethnic racial identity discrimination and sleep Youths sociopolitical perceptions and mental health Intersections between race class and gender and much more Rather than focusing on the additive effects of race ethnicity and SES which is typical and a limitation in the developmental literature the scholarship in this book considers how the factors and processes shaping the development of children of color can differ markedly across the socioeconomic continuum This collection illustrates how applying an intersectional lens to

developmental science can yield unique insights into the challenges confronting and assets buoying both minority and majority children's healthy development Official Gazette Philippines,2004

Breaking the STEM Stereotype Amanda Alzena Sullivan, 2019-10-21 Men continue to outnumber women in numerous technical STEM Science Technology Engineering and Math fields such as engineering and computer science Prior work demonstrates the importance of introducing girls to STEM content early on before gender stereotypes are ingrained However many parents and teachers are not sure how to do this in a developmentally appropriate and playful way Breaking the STEM Stereotype Reaching Girls in Childhood by Dr Amanda Sullivan Ph D explores the various social cultural and psychological reasons behind the persistent gender disparity between men and women in STEM fields By explaining the powerful role of stereotypes the media and experiences with peers and adults during the foundational early childhood years this book builds the case of early childhood being a critical time in development to reach girls Breaking the STEM Stereotype is set up in three parts Part 1 provides the current state of the gender divide in each aspect of STEM and explores why early childhood is a critical time to address this divide Part 2 explores gender identity development and gender stereotypes as well as the influences of the media advertising and adult and peer role models on young children Finally Part 3 arms readers with the knowledge they need to dispel gender stereotypes in STEM It provides suggestions on tools technologies and kits that can be used with young girls beginning in pre kindergarten It provides materials needed to design effective curricula and activities to engage girls with STEM in playful ways that build on their personal interests

Resources in Education, 1998 After the Education Wars Andrea Gabor, 2018-06-12 The education wars have been demoralizing for teachers After the Education Wars helps us to see a better way forward Cathy N Davidson The New York Times Book Review After the Education Wars is an important book that points the way to genuine reform Diane Ravitch author of Reign of Error and The Death and Life of the Great American School System A bestselling business journalist critiques the top down approach of popular education reforms and profiles the unexpected success of schools embracing a nimbler more democratic entrepreneurialism In an entirely fresh take on school reform business journalist and bestselling author Andrea Gabor argues that Bill Gates Eli Broad and other leaders of the prevailing education reform movement have borrowed all the wrong lessons from the business world After the Education Wars explains how the market based measures and carrot and stick incentives informing today's reforms are out of sync with the nurturing culture that good schools foster and contrary to popular belief at odds with the best practices of thriving twenty first century companies as well These rich detailed stories of real reform in action illustrate how enduring change must be deeply collaborative and relentlessly focused on improvement from the grass roots up lessons also learned from both the open source software and quality movements The good news is that solutions born of this philosophy are all around us from Brockton Massachusetts where the state's once failing largest high school now sends most graduates to college to Leander Texas a large district where school improvement spurred by the ideas of quality guru W Edwards Deming has

become a way of life A welcome exception to the doom and gloom canon of education reform After the Education Wars makes clear that what s needed is not more grand ideas but practical and informed ways to grow the best ones that are already transforming schools
