Back Elsbeth Johnson,2020-02-20 Many strategic change efforts fail And virtually all of them are harder than they need to be Why is this And what can we do to make change more likely to stick Dr Elsbeth Johnson a former equity analyst and London Business School Professor now teaching at MIT has spent a decade researching how to deliver strategic change in practice Based on asking managers what they needed from leaders rather than just asking leaders what they did her resulting Step Up Step Back approach challenges some of our most fundamental beliefs about how to lead change and indeed about what we even consider to be leadership The Step Up Step Back approach suggests leaders need to step up and do more than they

typically do in the early stages of the change in specific ways and at specific times and then step back and do less than they typically do in the later stages of the change again in specific ways at specific times The result is not only change that sticks but empowered motivated managers who can get on with delivering change without needing ongoing input or cover from leaders Using real world examples of how to apply the science in practice Step Up Step Back gives you a roadmap for how to deliver strategic change in your organization
