How Buildings Learn What Happens After Theyre Built:

How Buildings Learn Stewart Brand,1994 Buildings have often been studied whole in space but never before have they been studied whole in time Architects and architectural historians are interested only in a building s original intentions Most are dismayed by what happens later when a building develops its own life responsive to the life within To get the rest of the story to explore the years between the dazzle of a new building and its eventual corpse Stewart Brand went to facilities managers and real estate professionals to preservationists and building historians to photo archives and to futurists He inquired What makes some buildings come to be loved He found that all buildings are forced to adapt but only some adapt gracefully How Buildings Learn is a masterful new synthesis which proposes that buildings adapt best when constantly refined and reshaped by their occupants and that architects can mature from being artists of space to becoming artists of time A rich resource and point of departure as stimulating for the general reader and home improvement hobbyist as for the building professional the book is sure to generate ideas provoke debate and shake up habitual thinking From the connected farmhouses of New England to I M Pei s Media Lab from satisficing to form follows funding from the evolution of bungalows to the invention of Santa Fe Style from Low Road military surplus buildings to a High Road English classic like Chatsworth this is a far ranging survey of unexplored essential territory More than any other human artifact buildings improve with time if they re allowed How Buildings Learn shows how to work with time rather than against it

Subject To Change: Creating Great Products & Services for an Uncertain World Peter Merholz,Todd Wilkens,Brandon Schauer,David Verba,2008-04-15 To achieve success in today s ever changing and unpredictable markets competitive businesses need to rethink and reframe their strategies across the board Instead of approaching new product development from the inside out companies have to begin by looking at the process from the outside in beginning with the customer experience It s a new way of thinking and working that can transform companies struggling to adapt to today s environment into innovative agile and commercially successful organizations Companies must develop a new set of organizational competencies qualitative customer research to better understand customer behaviors and motivations an open design process to reframe possibilities and translate new ideas into great customer experiences and agile technological implementation to quickly prototype ideas getting them from the whiteboard out into the world where people can respond to them In Subject to Change Creating Great Products and Services for an Uncertain World Adaptive Path a leading experience strategy and design company demonstrates how successful businesses can and should use customer experiences to inform and shape the product development process from start to finish

How Buildings Learn Stewart Brand,1995-10-01 A captivating exploration of the ever evolving world of architecture and the untold stories buildings tell When a building is finished being built that isn t the end of its story More than any other human artifacts buildings improve with time if they re allowed to Buildings adapt by being constantly refined

and reshaped by their occupants and in that way architects can become artists of time rather than simply artists of space From the connected farmhouses of New England to I M Pei s Media Lab from the evolution of bungalows to the invention of Santa Fe Style from Low Road military surplus buildings to a High Road English classic like Chatsworth this is a far ranging survey of unexplored essential territory Discover how structures become living organisms shaped by the people who inhabit them and learn how architects can harness the power of time to create enduring works of art through the interconnected worlds of design function and human ingenuity

Architecture, Theology, and Ethics Elise M. Edwards, 2024-03-18

Architecture Theology and Ethics Making Architectural Design More Just argues that architecture design and creativity are theological ethical concerns that ought to be considered more deeply by Christians who are committed to social and environmental justice Elise M Edwards discusses the significance of architectural design entering into ongoing conversations in theological ethics and aesthetics She argues that architectural design is not just a professional practice for wealthy clients but rather an activity that everyday people undertake when making choices that shape the spaces they inhabit If Christians think theologically about their agency in these decisions they will discover that architectural design becomes an opportunity to contribute to the flourishing for humanity and God s creation Edwards proposes an approach to architectural design that presents it as prophetic action with the power to shape our world This book then presents five moral commitments that guide design intentions and the process of design towards justice and inclusion Grounded in liberationist feminist and womanist thought Architecture Theology and Ethics makes a compelling case for architecture s relevance to Christian ethics and theology

1,000 Books to Read Before You Die James Mustich, 2018-10-02

The ultimate literary bucket list THE WASHINGTON POST Celebrate the pleasure of reading and the thrill of discovering new titles in an extraordinary book that s as compulsively readable entertaining surprising and enlightening as the 1 000 plus titles it recommends Covering fiction poetry science and science fiction memoir travel writing biography children s books history and more 1 000 Books to Read Before You Die ranges across cultures and through time to offer an eclectic collection of works that each deserve to come with the recommendation You have to read this But it s not a proscriptive list of the great works rather it s a celebration of the glorious mosaic that is our literary heritage Flip it open to any page and be transfixed by a fresh take on a very favorite book Or come across a title you always meant to read and never got around to Or like browsing in the best kind of bookshop stumble on a completely unknown author and work and feel that tingle of discovery There are classics of course and unexpected treasures too Lists to help pick and choose like Offbeat Escapes or A Long Climb but What a View And its alphabetical arrangement by author assures that surprises await on almost every turn of the page with Cormac McCarthy and The Road next to Robert McCloskey and Make Way for Ducklings Alice Walker next to Izaak Walton There are nuts and bolts too best editions to read other books by the author if you like this you ll like that recommendations and an interesting endnote of adaptations where appropriate Add it all up and in fact there are more than six thousand titles by nearly four

thousand authors mentioned a life changing list for a lifetime of reading 948 pages later you still want more THE WASHINGTON POST *Edward Prior* Martin Godfrey Cook,2015-08-31 Edward Schroder Prior designed the cathedral of the Arts and Crafts Movement St Andrew s Church Roker perfected the popular butterfly plan in his houses and published what is still the seminal work on medieval gothic art in England in 1900 Highly regarded by critics such as Ian Nairn Prior is sometimes considered to have narrowly missed out on a place in the architectural pantheon of his age alongside contemporaries such as Charles Voysey and William Lethaby The result of extensive archival and field research Edward Prior Arts and Crafts Architect sheds new light on Prior s architecture life and scholarship Extensively illustrated it showcases Prior s work in colour including many of his architectural drawings and photographs of most of his extant buildings Prior is the missing link of the Arts and Crafts Movement in both a theoretical and a practical sense as he was possibly the only practitioner who genuinely translated the artistic theories of Ruskin and Morris into architectural reality He went on to found the School of Architecture at the University of Cambridge in 1912 Extensively illustrated with 200 colour illustrations including many of his architectural drawings and photographs of most of his extant buildings

Learning-Through-Touring Juliet Sprake,2012-03-26 Learning through Touring uncovers ways in which people interact with the built environment by exploring the spaces around between and within buildings The key idea embodied in the book is that learning through touring is haptic the learner is a physical cognitive and emotional participant in the process It also develops the concept that tours rather than being finished products are designed to evolve through user participation and over time Part One of the book presents a series of analytical investigations into theories and practices of learning and touring that have then been developed to produce a set of conceptual methods for tour design Projects that have tried and tested these methods are described in Part Two Technologies that have been utilised as portable tools for learning through touring are illustrated both through historical and contemporary practices In all of this there is an underlying belief that what is formally presented to us by authorities is open to self discovery questioning and independent enquiry The book is particularly relevant for those seeking innovative ways to explore and engage with the built environment mobile learning educators learning departments in museums galleries and historic buildings organisations involved in bridging the gap between architecture and public understanding and anyone who enjoys finding out new things about their environment

Living in Information Jorge Arango,2018-06-15 Websites and apps are places where critical parts of our lives happen We shop bank learn gossip and select our leaders there But many of these places weren t intended to support these activities Instead they re designed to capture your attention and sell it to the highest bidder *Living in Information* draws upon architecture as a way to design information environments that serve our humanity *Special Structural Topics* Paul McMullin,Jonathan Price,Sarah Simchuk,2017-07-20 *Special Structural Topics* covers specialty structural situations for students and professional architects and engineers such as soil mechanics structural retrofit structural integrity cladding

design blast considerations vibration and structural sustainability As part of the Architect s Guidebooks to Structures series it provides a comprehensive overview using both imperial and metric units of measurement with more than 150 images As a compact summary of key ideas it is ideal for anyone needing a quick guide to specialty structural considerations

Architecture and Participation Peter Blundell Jones,Doina Petrescu,Jeremy Till,2013-07-04 Bringing together leading international practitioners and theorists in the field ranging from the 1960s pioneers of participation to some of the major contemporary figures in the field Architecture and Participation opens up the social and political aspects of our built environment and the way that the eventual users may shape it Divided into three sections looking at the politics histories and practices of participation the book gives both a broad theoretical background and more direct examples of participation in practice Respectively the book explores participation s broader context outlining key themes and including work from some seminal European figures and shows examples of how leading practitioners have put their ideas into action Illustrated throughout the authors present to students practitioners and policy makers an exploration of how a participative approach may lead to new spatial conditions as well as to new types of architectural practices and investigates the way that the user has been included in the design process
