

Example of a key the manufacturer claims to be forged, but is actually CAST. Note the iron lag build up in the bolt pockets. An installer would have to machine this pocket out in order to be able to install the bolt.

Extremely poor finish quality. This is often an indicator of poor craftsmanship and overall quality of the product. This kind of product you want to avoid!

Think this key will fit properly on a torsion bar?

Even though this key looks like it was found on the side of a road, its actually NEW!
