Scientific Group on the Biology of Human Reproduction,1964 Dynamics of Human Reproduction James W. Wood,2017-09-29 Awarded the W W Howells Award for the Outstanding Book in Biological Anthropology this volume presents a comprehensive integrated and up to date overview of the major physiological and behavioral factors affecting human reproduction In attempting to identify the most important causes of variation in fertility within and among human populations Wood summarizes data from a wide range of societies Trained as an anthropologist as well as a demographer he devotes special attention to so called natural fertility populations in which modern contraceptives and induced abortion are not used to limit reproductive output Such an emphasis enables him to study the interaction of biology and behavior with particular clarity The volume weaves together the physiological demographic and biometric approaches to human fertility in a way that will encourage future interdisciplinary research Instead of offering a general overview the focus is to answer one question Why does fertility and the number of live births vary from couple to couple within any particular population and from population to population across the human species as a whole Topics covered include ovarian function conception and pregnancy intrauterine mortality reproductive maturation and senescence coital frequency and the waiting time to conception marriage patterns and the initiation of reproduction the fertility reducing effects of breastfeeding the impact of maternal nutrition on reproduction and reproductive seasonality This unique combination of comprehensive subject matter and an integrated analytical approach makes the book ideally suited both as a graduate level textbook and as a reference work **On Fertile Ground** Peter Thorpe ELLISON,Peter Thorpe Ellison,2009-06-30 Reproduction is among the most basic of human biological functions both for our distant ancestors and for ourselves whether we live on the plains of Africa or in North American suburbs Our reproductive biology unites us as a species but it has also been an important engine of our evolution In the way our bodies function today we can see both the imprint of our formative past and implications for our future It is the infinitely subtle and endlessly dramatic story of human reproduction and its evolutionary context that Peter T Ellison tells in On Fertile Ground Ranging from the latest achievements of modern fertility clinics to the lives of subsistence farmers in the rain forests of Africa this book offers both a remarkably broad and a minutely detailed exploration of human reproduction Ellison a leading pioneer in the field combines the perspectives of anthropology stressing the range and variation of human experience ecology sensitive to the two way interactions between humans and their environments and evolutionary biology emphasizing a functional understanding of human reproductive biology and its role in our evolutionary history Whether contrasting female athletes missing their periods and male athletes using anabolic steroids with Polish farm women and hunter gatherers in Paraguay or exploring the intricate choreography of an implanting embryo or of a nursing

mother and her child On Fertile Ground advances a rich and deeply satisfying explanation of the mechanisms by which we reproduce and the evolutionary forces behind their design **The Biology of Human Reproduction** John Juan Head,1979-01-01 **Human Reproductive Biology** Sylvia S. Mader,2005 This text presents human reproduction from the biological point of view It is most appropriate for use by non science students who would like a biological understanding of human reproduction The three parts of the book may be studied in whatever sequences the instructor desires Part I contains topics on human inheritance and biotechnology Part II has in depth coverage of fertilization and the major biological events of embryonic and fetal development In Part III the evolution of sexual reproduction is presumed to have increased biological fitness
