practices This edited volume of studies by respected international scholars describes the diverse issues journalism educators are grappling with and the changes they are making in purpose and practice The book is organized into three sections education training and employment that explore common themes How the assumptions embedded in journalism education are being examined and revised in the light of transformative changes in communication How the definitions of journalism and journalists are broadening in scope and what this means for educators How newsrooms and training programs around the world are being re examined and made more effective An introductory essay and section summaries provide context for the thirteen chapters that constitute the collection The section on journalism education explores fundamental ways educators are seeking to make their institutions and practices stronger and more responsive The section on training includes case studies of journalism training programs in sub Saharan Africa Turkey Sweden and the U S The final section examines the job prospects and employment market for journalism students with data from the U S U K Australia and Sweden The scope of issues considered in the book makes it a valuable resource for journalism scholars from around the world as well as doctoral students journalism and communication administrators in universities organizations that fund journalism training programs and practitioners interested in understanding employment and education trends Resources in Education ,1994

Charting the AI Transition in Education and Business Environments James Hutson,TJ Rains,2024-11-18 This book delineates a comprehensive framework designed to ultimately assist organizations as they navigate the critical juncture often termed the inflection point in adopting generative Artificial Intelligence AI Addressing the exigent shift in organizational strategy mandated by Industry 4 0 and urging a transition from mere digital transformation to what is being progressively understood as generative transformation it fills a conspicuous lacuna in both academic and practical discourses by presenting a timely synthesis of research empirical studies and case analyses The authors utilize an interdisciplinary methodology bridging the epistemological divide between the technological intricacies of generative AI and its effective implementation within institutional frameworks Reorienting the focus of organizational leaders from a simplistic replacement paradigm to one of technological human augmentation it works toward a prescriptive blueprint for enabling organizations to adopt generative AI without compromising their most valuable asset human intellectual and emotional capital Fostering interdisciplinary dialog among academics industry professionals and policymakers it fills a critical gap in current discourses and serves as a catalyst for future research and collaboration **Political Communication in the Online World** Gerhard Vowe,Philipp Henn,2015-12-07 As a consequence of the rapid diffusion of online media the conditions for political communication and research concerning it have radically changed Is empirical communication research capable of consistently describing and explaining the changes in political communication in the online world both from a theoretical and methodological perspective In this book Gerhard Vowe Philipp Henn and a group of leading international experts in the field of communication studies guide the reader through the complexities of political communication and evaluate whether and to

what extent existing theoretical approaches and research designs are relevant to the online world In the first part of the book nine chapters offer researchers the opportunity to test the basic assumptions of prominent theories in the field to specify them in terms of the conditions of political communication in the online world and to modify them in view of the systematically gained experiences The second methodological section tests the variations of content analysis surveys expert interviews and network analyses in an online environment and documents how successful these methods of empirical analysis have proven to be in political communication Written accessibly and contributing to key debates on political communication this bookshelf essential presents an indispensable account of the necessary tools needed to allow researchers decide which approach and method is better suited to answer their online problem [The Global Journalist in the 21st Century](#) David H. Weaver, Lars Willnat, 2020-10-25 The Global Journalist in the 21st Century systematically assesses the demographics education socialization professional attitudes and working conditions of journalists in various countries around the world This book updates the original Global Journalist 1998 volume with new data adding more than a dozen countries and provides material on comparative research about journalists that will be useful to those interested in doing their own studies The editors put together this collection working under the assumption that journalists backgrounds working conditions and ideas are related to what is reported and how it is covered in the various news media round the world in spite of societal and organizational constraints and that this news coverage matters in terms of world public opinion and policies Outstanding features include Coverage of 33 nations located around the globe based on recent surveys conducted among representative samples of local journalists Comprehensive analyses by well known media scholars from each country A section on comparative studies of journalists An appendix with a collection of survey questions used in various nations to question journalists As the most comprehensive and reliable source on journalists around the world The Global Journalist will serve as the primary source for evaluating the state of journalism As such it promises to become a standard reference among journalism media and communication students and researchers around the world **Issues in Contemporary Journalism Education and Practice in Nigeria: Volume 1** Nosa Owens-Ibie, Eric Msughter Aondover, 2025-06-24 The twenty first century is increasingly shaped by communications and media innovations Societies and economies are now highly mediatised and digitised like never before There are phenomena changes in the ways global citizens communicate and interact The era is one in which the mass media industries are highly disrupted With mediatisation digitalisation and audience participation in public sphere old theories concepts curricula and pedagogy of communication and media studies are increasingly put to the test Within this context there is a paradigm shift from Mass Communication as a discipline to Communication and Media Studies along with other highly specialised yet interrelated disciplines taking into consideration the ongoing digital revolution harbingered by globalisation and contemporary Information Communication Technologies ICTs This has created the need for new instructional and reading materials relevant for use by stakeholders in tertiary educational system in

Nigeria Accordingly Issues in Contemporary Journalism Education and Practice in Nigeria is a timely and most adequate response to address the felt needs of teachers and learners in universities and colleges globally **Education Research and the Media** Aspa Baroutsis, Stewart Riddle, Pat Thomson, 2018-12-07 Universities around the world now actively encourage academics to engage in public scholarship publishing in traditional and new media newspapers television radio blogs and social media Education Research and the Media addresses this situation using empirical and reflexive accounts to interrogate and advance the ways in which this shift is usually discussed Drawing on Australian and international scholars and contexts this edited collection probes the effects of these engagements Taken together the book offers new conceptualisations of the junctures and disjunctures of local national and transnational mediascapes in education research working across both traditional media and social media platforms The book takes as its starting point that traditional national media while still significant are now embedded in practices and discourses that transcend geographic and spatial boundaries Global media logics challenge the profitability and operations of media corporations as the production of news and information is paradoxically both democratised and fragmented There is a limited body of research about how this mediated landscape impacts on public scholarship This is the first book in the field of education to systematically investigate this landscape using empirical examples and analysis as well as a range of theoretical and conceptual approaches Social Media Law and Ethics Jeremy Harris Lipschultz, 2025-08-29 In this textbook social media professor Jeremy Harris Lipschultz introduces students to the study of social media law and ethics integrating legal concepts and ethical theories This second edition explores freedom of expression as it applies to students media industry professionals content creators and audience members Key issues and practices covered include copyright law data privacy defamation global law and ethics generative AI government censorship social media platform rules and employer policies The book also addresses the U S government s TikTok law and other recent regulations Research techniques are also used to suggest future trends in social media law and ethics Touching on themes and topics of significant contemporary relevance this accessible textbook can be used in standalone law and ethics courses as well as emerging social media courses that are disrupting traditional public relations advertising marketing and journalism curricula Case studies discussion questions and online resources help students engage with the practicalities complexities and ambiguities of this future oriented area of media law making this an ideal textbook for students of media law policy and ethics mass media and communication studies **Education for Democracy** Steven P. Camicia, Ryan Knowles, 2021-01-01 This book presents a vision of education for democracy built around promoting equity and social justice In doing so Camicia and Knowles challenge many of the common perspectives of democratic education deliberation and the common good The authors have published widely on the topic of education for democracy This book builds upon their work to assist practicing teachers teacher educators graduate students and educational researchers in understanding the background of education for democracy as well as new directions for the field While one of the primary

goals of public schools is to teach students how to build better communities this goal is increasingly difficult given the degree of political polarization within societies Recent events provide no shortage of challenges to democracy in the United States and beyond Utilizing theory and research Camicia and Knowles promote instructional methods that are responsive to changing cultural and political contexts There is an increasing need to rethink democratic principles and how these principles might be supported in classrooms in order to teach for social justice This requires a move away from often stated idealistic notions of deliberative democracy toward a perspective of education for democracy that incorporates aspects of identity interests and inequitable power relations within society
