commitments of a global community of scholars and practitioners who have contributed chapters to this edited volume. It is an international and interdisciplinary evaluation center that is grounded in the need for designing and conducting evaluations and assessments that embody cognitive, cultural, and interdisciplinary diversity so as to be actively responsive to culturally diverse communities and their aspirations. The Center's purpose is to address questions, issues, theories, and practices related to CRE and culturally responsive educational assessment. Therefore, CREA can serve as a vehicle for our continuing discourse on culture and cultural context in evaluation and also as a point of dissemination for not only the work that is included in this edited volume but for the subsequent work it will encourage.

Teaching, Pedagogy, and Learning Jeffery W. Galle, Rebecca L. Harrison, 2017-05-01

Teaching Pedagogy and Learning: Fertile Ground for Campus and Community Innovations brings together narratives of pedagogical innovation aimed at increasing student engagement and performance and bolstering faculty teaching effectiveness and satisfaction. These transdisciplinary, transpedagogical essays all emerged from faculty experiences at the annual Institute for Pedagogy in the Liberal Arts (IPLA) offered by Oxford College of Emory University. The book spotlights two significant points: first, faculty need pioneering, supportive contexts within which they can conceive, develop, revise, and publish innovative teaching experiments using the same principles of experiential and active learning that have become the foundation of learning for student success; and second, strong institutional partnership with faculty development affords one way to achieve this outcome. The seven essays in this book are written by seventeen diverse scholar-teachers across eleven academic disciplines and nine institutions, from K-12 schools to small liberal arts colleges to tier-one research institutions, for whom the IPLA experience at Oxford springboarded significant pedagogical growth.
