# Jsc 2014 Global Studies Question Sheet

**Jessica Duncan, Michael  
Carolan, Johannes S.C. Wiskerke**

## Jsc 2014 Global Studies Question Sheet:

**The Report: Jordan 2014** Oxford Business Group, 2014-10-30 A number of Jordan's key economic indicators have improved over the last year and GDP is forecast to grow by 3.5% in 2014. Jordan's reliance on energy imports is being addressed with increased focus on domestic oil shale reserves and nuclear energy while plans to build a pipeline through the country from Iraq will provide a stable oil supply at discounted rates. Jordan's expanding population has put pressure on state services particularly health where the private sector is expected to play an increasingly prominent role. Tourism revenues rose in 2014 and with the unveiling of a new arrivals terminal at Aqaba International Airport and plans for a national rail network these are expected to rise further in the coming years. All in all continued political stability, large scale transportation developments, the availability of a young educated workforce and government efforts to reduce the fiscal deficit and the country's reliance on energy imports should ensure Jordan maintains its strong position in the region. Archaeology and Heritage of the Human Movement into Space Beth Laura O'Leary, P. J. Capelotti, 2014-08-30 This volume addresses the creation, documentation, preservation and study of the archaeology of lunar, planetary and interstellar exploration. It defines the attributes of common human technological expressions within national and increasingly private exploration efforts and explores the archaeology of both fixed and mobile artifacts in the solar system and the wider galaxy. This book presents the research of the foremost scholars in the field of space archaeology and heritage, a recent discipline of the field of Space Archaeology and Heritage. It provides the emerging archaeological perspective on the history of the human exploration of space. Since humans have been creating a vast archaeological preserve in space and on other celestial bodies, this assemblage of heritage objects and sites attests to the human presence off the Earth and the study of these material remains are best investigated by archaeologists and historic preservationists. As space exploration has reached the half-century mark, it is the appropriate time to reflect on the major events and technological development of this particular, unique 20th-century arena of human history. The authors encapsulate various ways of looking at the archaeology of both fixed and mobile human artifacts in the solar system. As missions continue into space and as private ventures gear up for public and tourist visits to space and to the Moon and even Mars, it is the appropriate time to address questions about the meaning and significance of this material culture. **Credit, Consumers and the Law** Karen Fairweather, Paul O'Shea, Ross Grantham, 2016-10-14 Consumer law, particularly consumer credit law, is characterised by increasingly complex regulation in Western economies. Reacting to the Global Financial Crisis, governments in the UK, the EU, Australia, New Zealand and the United States have adopted new laws dealing with consumer credit, responsible lending, consumer guarantees and unfair contracts. Drawing together authors from all of these jurisdictions, this book analyses and evaluates these initiatives and makes predictions as to their likely success and possible flaws. Future Research Questions for Improving COPD Diagnosis and Care Amany F. Elbehairy, Justin Garner, Azmy Faisal, Ahmed Sadaka, 2024-05-06 Chronic obstructive pulmonary disease (COPD) is one of the

most common respiratory diseases that is associated with significant morbidity and mortality worldwide Exposure to toxic particles and gases including cigarette smoke is the main risk factor for COPD Genetic predisposition also plays a major role which besides toxic exposure type and duration can determine different disease phenotypes Patients with COPD often experience troublesome respiratory symptoms frequent chest infections and most importantly are at risk of serious complications such as lung cancer and cardiorespiratory failure Despite this there is currently no cure for COPD but available treatment options pharmacological non pharmacological and interventional can help slow disease progression and improve symptoms and quality of life

*Handbook of Research on Present and Future Paradigms in Human Trafficking* Essien, Essien D.,2022-05-20 Human trafficking is currently regarded as a contemporary form of slavery However despite many initiatives undertaken over the last two decades to tackle the problem there seems to be a disproportionate emphasis on the social phenomenon Trafficking in persons remains a little explored area in scholarship with many inconsistencies and ambiguities yet to be attended to Human trafficking is a multifaceted issue that requires a multidisciplinary approach that must be studied and considered thoroughly and with heavy regard to the many layers of the issue The Handbook of Research on Present and Future Paradigms in Human Trafficking presents a comprehensible view of what constitutes the underpinning of human trafficking the means of combating it its moral implications and offers possible solutions toward curbing its excesses inconsistencies and ambiguities Covering a range of topics such as social change human rights and ethics this major reference work is ideal for researchers scholars practitioners government officials policymakers instructors academicians and students
