The following table shows the results of the regression analysis for the dependent variable *perceptions of the effectiveness of the government's response to the crisis*. The model explains 41% of the variance in the dependent variable. The results show that the independent variables *perceptions of the government's response to the crisis* and *perceptions of the government's response to the crisis* are significant predictors of the dependent variable. The results also show that the independent variable *perceptions of the government's response to the crisis* is a significant predictor of the dependent variable.
