Midwest Folklore,1963

The Morenci Marines Kyle Longley,2015-06-15 In 1966 nine young men left the Arizona desert mining camp of Morenci to serve their country in the far flung jungles of Vietnam in danger zones from Hue to Khe Sanh Ultimately only three survived Each battled survivor s guilt difficult re entries into civilian life and traumas from personally experiencing war and losing close friends along the way Such stories recurred throughout America but the Morenci Marines stood out ABC News and Time magazine recounted their moving tale during the war and in 2007 the Arizona Republic selected the Morenci Nine as the most important veterans story in state history Returning to the soldiers Morenci roots Kyle Longley s account presents their story as unique by setting and circumstance yet typical of the sacrifices borne by small towns all across America His narrative spotlights a generation of young people who joined the military during the tumultuous 1960s and informs a later generation of the hard choices made many with long term consequences The story of the Morenci Marines also reflects that of their hometown a company town dominated by the Phelps Dodge Mining Corporation where the company controlled lives and the labor strife was legendary The town s patriotic citizens saw Vietnam as a just cause moving Clive Garcia s mother to say He died for this cause of freedom Yet while their sons fought and sent home their paychecks Phelps Dodge sought to destroy the union that kept families afloat pushing the government to end a strike that it said undermined the war effort Morenci was also a place where cultures intermingled and the nine friends included three Mexican Americans and one Native American Longley reveals how their backgrounds affected their decisions to join and also helped the survivors cope with Mike Cranford racing his Harley on back roads at high speeds while Joe Sorrelman tried to deal with demons of war through Navajo rituals Drawing on personal interviews and correspondence that sheds new light on the Morenci Nine Longley has written a book as much about loss grief and guilt as about the battlefield It makes compelling reading for anyone who lived in that era and for anyone still seeing family members go off to fight in controversial wars

Integral Community Enterprise in Africa Anselm Adodo,2017-04-03 At a time of global economic crisis and disillusionment with capitalism Adodo offers refreshing and positive insight into a more integral way of business management enterprise and community development as well as holistic healing in Africa For over three decades Africa was the recipient of billions of dollars in aid funds that were meant to catapult the continent from undeveloped to developed status Yet the more the aid poured in the poorer African countries became The devastating effect of western economic models in Africa that followed is well documented Integral Community Enterprise in Africa exposes the limitations of existing theories such as capitalism socialism and communism and shows how western theories were imposed on Africa Such imposition of concepts and ideas is not only demeaning but also unsustainable serving only the interest of the elite Father Anselm Adodo argues for the need to have a southern theory to serve as an alternative to western theories The majority of African intellectuals and activists while criticizing existing theories often do not provide alternative theories to address the prevalent inadequacies entrenched in conventional social political and economic systems This revolutionary book aims to address this lapse and proposes the theory of communitarianism as a more indigenous sustainable and integral approach to tackling the social political economic and developmental challenges of today s Africa There is an African alternative to capitalism socialism and communism a surer path to sustainable development in and from Africa This is a book that is positioned at the very core of a much needed African Renaissance A profoundly new approach to development in Africa this is essential reading for anyone concerned with authentic development in Africa and in the world
