Fulfillment Alec MacGillis, 2021-03-16 A New York Times Book Review Editors Choice A grounded and expansive examination of the American economic divide It takes a skillful journalist to weave data and anecdotes together so effectively Carolyn Kellogg Los Angeles Times An award winning journalist investigates Amazon s impact on the wealth and poverty of towns and cities across the United States In 1937 the famed writer and activist Upton Sinclair published a novel bearing the subtitle A Story of Ford America He blasted the callousness of a company worth a billion dollars that underpaid its workers while forcing them to engage in repetitive and sometimes dangerous assembly line labor Eighty three years later the market capitalization of Amazon com has exceeded one trillion dollars while the value of the Ford Motor Company hovers around thirty billion We have it seems entered the age of one click America and as the coronavirus makes Americans more dependent on online shopping its sway will only intensify Alec MacGillis s *Fulfillment* is not another inside account or expos of our most conspicuously dominant company Rather it is a literary investigation of the America that falls within that company s growing shadow As MacGillis shows Amazon s sprawling network of delivery hubs data centers and corporate campuses epitomizes a land where winner and loser cities and regions are drifting steadily apart the civic fabric is unraveling and work has become increasingly rudimentary and isolated Ranging across the country MacGillis tells the stories of those who ve thrived and struggled to thrive in this rapidly changing environment In Seattle high paid workers in new office towers displace a historic black neighborhood In suburban Virginia homeowners try to protect their neighborhood from the environmental impact of a new data center Meanwhile in El Paso small office supply firms seek to weather Amazon s takeover of government procurement and in Baltimore a warehouse supplants a fabled steel plant *Fulfillment* also shows how Amazon has become a force in Washington D C ushering readers through a revolving door for lobbyists and government contractors and into CEO Jeff Bezos s lavish Kalorama mansion With empathy and breadth MacGillis demonstrates the hidden human costs of the other inequality not the growing gap between rich and poor but the gap between the country s winning and losing regions The result is an intimate account of contemporary capitalism its drive to innovate its dark pitiless magic its remaking of America with every click

We follow CEO Sam Solomon an African American leading the nearly all white town's biggest private employer as he tries to rescue the company from the New York private equity firm that hired him Meanwhile Alexander goes behind the scenes entwined with the lives of residents as they wrestle with heroin politics high interest lenders low wage jobs technology and the new demands of American life people like Brian Gossett the fourth generation to work at Anchor Hocking Joe Piccolo first time director of the annual music festival who discovers the town relies on him and it for salvation Jason Roach who police believed may have been Lancaster's biggest drug dealer and Eric Brown a local football hero turned cop who comes to realize that he can never arrest Lancaster's real problems A devastating portrait For anyone wondering why swing state America voted against the establishment in 2016 Mr Alexander supplies plenty of answers The Wall Street Journal This book hunts bigger game Reads like an odd and oddly satisfying fusion of George Packer's *The Unwinding* and one of Michael Lewis's real life financial thrillers Slate
