La Conversion Religieuse:

La conversion religieuse Emmanuel Godo, 2000-01-01 *La conversion religieuse* Pierre-Yves Brandt, Claude-Alexandre Fournier, 2009 Il y a plus d'un siècle déjà que les pionniers de la psychologie de la religion ont mené des études sur la conversion religieuse. Par la suite, cette thématique est passée au second plan. Elle revient sur le devant de la scène avec le pluralisme religieux de nos sociétés. La mondialisation et la globalisation économique ont accru la mobilité qu'elle soit géographique ou identitaire. Dans ce contexte, la conversion occupe une place de choix parmi les transformations identitaires. Son étude permet de clarifier les fonctions psychologiques jouées par le religieux. Articles sur des considérations théoriques et empiriques, les travaux rassemblés dans cet ouvrage donnent un aperçu significatif de l'évolution contemporaine des mentalités religieuses. À partir d'exemples identifiés chez de jeunes chrétiens et musulmans belges et anglais, chez des convertis vangeliques, chez des moines et moniales catholiques ou encore auprès de personnes attirées par de nouveaux mouvements religieux, le lecteur pourra mieux mesurer les éléments d'attachement à une forme ou l'autre d'une religion. Hors de la sphère strictement occidentale, des études menées en contexte bouddhiste et hindou montrent l'irréductibilité des modèles des expressions classiques ou attendues. Au final, ce livre souligne des aspects importants et mal connus relatifs à la recomposition du religieux aujourd'hui. Résumé de l'auteur

Religious and Philosophical Conversion in the Ancient Mediterranean Traditions, 2022-03-07 The interest in interdisciplinary research on the experience of religious conversion or spiritual transformation grows progressively. In light of this burgeoning area of study, this volume explores conversion or converting experience in the ancient Mediterranean with attention to early Judaism, early Christianity, and philosophy in the Roman Empire. The contributions include both historical and philological reconstructions relying on source material and utilizing interdisciplinary approaches. Similarly, the authors analyze the literary use of the motif of conversion, the topic of philosophical conversion, as well as ritual, social, and embodied aspects of spiritual transformation. *Religiosity on*

University Campuses in Africa Abdoulaye Sounaye, Frédéric Madore, 2023 This volume examines religiosity on university campuses in Sub-Saharan Africa. Focusing on both individuals and organized groups, the contributions open a window onto how religion becomes a factor, affects social interactions, is experienced and mobilized by various actors. It brings together case studies from various disciplinary backgrounds: anthropology, sociology, history, religious studies, literature, and theoretical orientations to illustrate the significance of religiosity in recent developments on university campuses. It pays particular attention to religion-informed activism and contributes a fresh analysis of processes that are shaping both the experience of being student and the university campus as a moral space. Last but not least, it sheds light on the ways in which the campus becomes a site of a reformulation of both religiosity and sociality. *Le phénomène des conversions religieuses* Henri LASSERRE, 2016-11-21 Alors que le nombre de conversions religieuses augmente nettement, ce phénomène est encore mal connu. Sur la base de nombreux entretiens avec des personnes converties de toutes les religions monothéistes, l'exception du

judaïsme Henri Lasserre met en lumière trois types de conversion la conversion d'opportunité celle de retour et celle de rupture qui se traduit par un changement d'affiliation religieuse volontaire Il met en lumière un certain nombre d'invariants communs toutes les conversions étudiées L'auteur montre que le converti recherche une nouvelle affiliation inscrite dans un contexte familial fragilisé compliqué ou déstructuré Dans tous les processus de conversion observés Henri Lasserre met en avant 4 traits communs L'existence d'un mal-être de la personne voire d'une crise identitaire Une rencontre avec un tiers avec lequel le converti se sent compris et reconnu et qui fait office de médiateur L'existence d'une communauté sachant accueillir la personne en souffrance Un travail sur soi au travers de la lecture la méditation l'auto-évaluation dans la prière tant entendu que ce livre ne se prononce pas sur le mérite de ces pratiques *Le sens et le mal* Yves Labbé, 1980 **Une autre foi** Loïc le Pape, 2020-11-22 La conversion religieuse est un processus nigmatique parfois insaisissable entre les bouleversements spirituels et leur encadrement religieux entre la porte d'un changement individuel et l'ampleur de ses effets sociaux partir d'une ethnographie de la conversion religieuse menée durant plusieurs années et avec une optique comparative inscrite entre les trois monothésismes l'ouvrage d'ampleur dont on se convertit aujourd'hui en France Loin de l'idée communément admise de l'abjuration soudaine d'un individu ce livre montre le rôle central de la nouvelle religion dans l'émergence d'un récit de conversion et l'importance cruciale des proches familles et amis dans l'évolution spirituelle des convertis qui vivent en quelque sorte un coming out religieux En laissant une large place à ceux qui traversent encadrent et accompagnent cette odyssée spirituelle l'ouvrage d'ampleur les étapes de la conversion religieuse en montrant ce qui est attendu des convertis et les façons dont ils s'emploient à y répondre L'auteur développe une conception relationnelle des conversions religieuses tout en questionnant la place contestée du religieux dans la société française Les histoires de conversions rapportées dans cet ouvrage témoignent des redéfinitions en cours des identités religieuses en France et la singularité des nouveaux convertis dans un pays laïc et sécularisé croyants dans un monde incroyant *Religion and International Law* Robert Uerpman-Wittzack, Evelyne Lagrange, Stefan Oeter, 2018-08-13 Growing religious antagonisms are challenging the ultimate goal of living together in peaceful societies Living together explores international law responses beginning with their historic roots before the perspective shifts to the role of religious institutions and religious law Contributions of different human rights bodies are analyzed before further sections deal with the international protection of religion the relationship between religious beliefs and freedom of expression and the roles of other individual rights Religion and International Law originates from the long standing cooperation between the German and the French Societies of International Law thus bringing together the traditions of French laicism and a cooperative German approach Experts from Austria Italy Poland Portugal and the UK complement the pan-European perspective *De Mohammed à Jésus* Julien Argoud, 2025-03-13 Entre 300 et 400 convertis anciennement musulmans se font baptiser catholique chaque année en France ceux-ci s'ajoutent des convertis ayant décidé de se tenir à l'écart des institutions catholiques souvent appelées catholiques de cœur Comment rendre compte de ces phénomènes de

Etudes religieuses, historiques et littéraires ,1876 Etudes de th ologie de philosophie et d histoire **Psychologie des premiers chrétiens** Gerd Theissen,2017-11-22 L extraordinaire destin du christianisme primitif peut s expliquer partir d une tude psychologique du mouvement lanc par J sus et ses premiers h ritiers Le succ s d un petit cercle religieux comme il en existait tant l poque tient la mani re dont les premiers chr tiens ont su int grer dans une m me communaut des

comportements religieux a priori antagonistes dictés par des invitations conjointes rompre avec les rites et les respecter. Les attitudes très diverses admises dans le christianisme primitif ont permis l'essor d'une communauté plurielle constituée de profils psychologiques très divers poussant plusieurs manières différentes de se situer par rapport à Dieu en brisant des tabous en rejetant son passé et sa famille mais aussi en inscrivant sa croyance dans une sagesse traditionnelle. Pour Gerd Theissen, une psychologie de la religion permet d'identifier les pulsions individuelles qui ont permis cette diversité. Bien davantage que l'Eglise ultérieure, les textes du Nouveau Testament offrent un matériau propice à cette lecture : processus de conversions, miracles, glossolalie, visions, exorcismes et rituels disent beaucoup de choses sur les premiers chrétiens et au-delà sur des comportements religieux universels.
