Martha Stewart's Encyclopedia of Crafts Martha Stewart Living Magazine, 2012-01-17 For nearly 20 years home crafters have turned to the pages of Martha Stewart Living for all kinds of crafts projects each presented in the magazine's inimitable style. Now the best of those projects including step by step instructions and full color photographs have been collected into a single encyclopedia. Organized by topic from A to Z, Martha Stewart's Encyclopedia of Crafts contains complete instructions and brief histories for more than 30 techniques, detailed descriptions of the necessary tools and materials, and easy to copy templates. Martha and her team of crafts editors guide readers through each subject from botanical pressing and decoupage to rubber stamping and wreaths with characteristic clarity and unparalleled attention to detail. Crafters of all skill and experience levels will appreciate the many variations presented for each technique. For example, candlemaking presents a comprehensive array of poured, rolled, and cutout candles including instructions for making your own, one of a kind rubber candle molds, floating candles, sand candles, and more. Each craft in the book takes on charming new dimensions with innovations that could come only from the team behind Martha Stewart Living. In addition, each entry in Martha Stewart's Encyclopedia of Crafts is chock full of tips and advice. Handy glossaries in the entries such as a comprehensive gem glossary, a glitter glossary, and a color glossary for making tinted wax are valuable references that crafters will refer to again and again. What's more, the Tools and Materials section outlines the best essential supplies that every crafter needs to have on hand, and the Sources pages clue readers in to the vendors and suppliers that the magazine's crafts editors rely on most. Filled with solid technical know-how and presented with gorgeous color photographs, this handy guide can be read page by page and kept as a lasting reference by crafters and artisans alike.

The Art of Jewelry Marthe Le Van, 2006 Following *The Art of Jewelry: Polymer Clay*, this second book in the series takes an exciting look at one of the most popular materials in crafting today: paper. Artists have constantly pushed the envelope of this versatile medium; these pages showcase their innovative techniques along with gorgeous work that's sure to inspire. And no previous jewelry-making experience is needed. All the basics are beautifully laid out, from an overview of the variety of available papers to an exploration of techniques. Easy to follow, how-to photos clarify each step. Best of all are the stunning projects, including Yael Friedman's simple diamond solitaire rings, K Dana Kagrise's elegant white bracelet made from vellum, and Dorteia Hosom's brooches that feature sophisticated collages.
