Lawrence,1987-05-21 Seen by Lawrence as his most accomplished book but subject to the initial prudery and incomprehension that met most of his fiction Women in Love examines the regenerative and destructive aspects of human passion as illustrated by its depiction of Ursula and Gudrun Brangwen who first appeared in The Rainbow and their relationships with Gerald Crich and Rupert Birkin Set against the backdrop of a world consuming itself in war the novel creates an instructive vision of humanity's dance with life and death This text is the famous first Women in Love the unexpurgated version preferred by Lawrence himself which was rejected by every publisher because of the banning of The Rainbow in 1915 More positive in tone than the revised version published in his lifetime with different central relationships and a radically different ending it is now viewed by many as Lawrence's masterpiece BOOK JACKET **Foremother Love** Dana Murphy,2025-06-27 Dana Murphy examines the importance of eighteenth century poet Phillis Wheatley as a foundational figure for Black feminist criticism *After Love* Subhash Jaireth,2012-10-01 Vasu a young Indian student of architecture arrives in Moscow in the late 1960s He falls in love with Anna an archaeologist and an accomplished cellist yet his romanticism about the Soviet Union clashes with her experience He goes back to India to design a village for a co operative of coffee farmers but he cannot forget Anna and on his return they marry Anna wants to leave Moscow but isn't keen to go to India They decide to go to Venice where Vasu has been offered a teaching position In Italy their life unravels when Anna mysteriously disappears without a trace Years later Vasu discovers a painful but wonderful truth A beautifully written story full of music and emotions that moves with ease across continents After Love is destined to touch the hearts of readers everywhere **For the Love of Language** Kate Burridge,Tonya N. A Word on the Revised Version of the New Testament William Gilson Humphry, 1881 *The Protestant's Protest Against the Catholic Claims*, 1826 **Religion, War, and Ethics** Gregory M. Reichberg, Henrik Syse, 2014-05-26 This volume offers a comprehensive selection of texts from the world's major religions on the ethical dimensions of war and armed conflict Despite a considerable rise of interest in Eastern and Western religious teachings on issues of war and peace the principal texts in which these teachings are expounded have in most cases remained inaccessible to all but a handful of specialists This is especially true of traditions such as Islam Buddhism and Judaism where the key authoritative treatments

are often embedded in texts e g Koranic jurisprudence religious epics or Talmudic commentary that are not overtly about matters pertaining to the ethics of war thus requiring a difficult process of interpretation and selection and for which English translations frequently do not exist Topical and timely for today s debates in the public arena and essential reading for students of religious ethics and the relationship between religion and politics this book aims to give the reader a proper knowledge of the textual traditions that inform the key struggles over issues of peace and security identity and land

Married Love Marie Carmichael Stopes, 2015-01-30 Example in this ebook In this little book Dr Marie Stopes deals with subjects which are generally regarded as too sacred for an entirely frank treatment Some earnest and delicate minds may feel apprehensive that such frankness in details is dangerous because the effect on prurient minds might be to give them food for their morbid fancies It is just such a fear which has been largely responsible for the silence and mystery which have for so long been wrapped round the sacred rites of mating The question now is Has this reticence been carried too far Has it been carried so far that it now tends to defeat its purpose of safeguarding public morals There are many who unhesitatingly answer such questions in the affirmative Their intimate knowledge of human lives compels them to recognise that at least as much harm is done by silence as by speaking out Everything depends on how the matter is presented Those who are shocked at the publication of such a book as this on the ground that it gives material for impure minds to sport with need only reflect that such material is already amply provided in certain comic papers in hosts of inferior novels too often on the stage and film and presented thus in coarse and demoralising guise It can do nothing but good to such minds to meet the facts they are already so familiar with in a totally new light On the other hand there are all the earnest and noble young minds who seek to know what responsibilities they are taking on themselves when they marry and how they may best meet these responsibilities How few of them have more than the vaguest ideas on the subject How few of them know how or where to obtain the help they desire They recoil from the coarse and impure sources of information which are so accessible and they hesitate to approach those they have learned to regard as virtuous and modest realising that from such they will receive so little actual information and that so veiled as to be almost useless Dr Stopes has attempted to meet the need of such seekers and her book will certainly be warmly welcomed by them It is calculated to prevent many of those mistakes which wreck the happiness of countless lovers as soon as they are actually married If it did no more than this it would be valuable indeed But there is an even more important aspect to be considered the effect on the child In all civilised lands there is a growing sense of responsibility towards the young The problems of their physical and mental nurture attract more and more attention day by day Eugenists educationists physicians politicians philanthropists and even ordinary parents discuss and ponder and discuss matters both great and small which have a bearing on the development of the child By common consent the first seven years of life are regarded as the most critical It is during these years that the foundations of the personality to be are laid well and truly or otherwise It is during these years that the deepest and most ineradicable impressions are made in the

plastic constitution of the child arresting or developing this or the other instinctive trend and fixing it often for life And it is during these years above all that the parents play the most important role in the inner history of the child s life not so much by anything they directly teach through verbal exhortations warnings or commands as by those subtler influences which are conveyed in gesture tone and facial expression The younger the child the more is it influenced through these more primitive modes of expression and quite as much when they are not directed towards itself but are employed by the parents in their intimate relations with one another in the presence of their apparently unobserving child the infant in its cot the toddling baby by the hearth the little child to all appearance absorbed in its picture book or toy To be continue in this ebook
