**Not a Good Day to Die** Sean Naylor,2005-03-01 Award winning combat journalist Sean Naylor reveals a firsthand account of the largest battle fought by American military forces in Afghanistan in an attempt to destroy al Qaeda and Taliban forces At dawn on March 2 2002 America s first major battle of the 21st century began Over 200 soldiers of the 101st Airborne and 10th Mountain Division flew into Afghanistan s Shah i Kot Valley and into the mouth of a buzz saw They were about to pay a bloody price for strategic high level miscalculations that underestimated the enemy s strength and willingness to fight Naylor an eyewitness to the battle details the failures of military intelligence and planning while vividly portraying the astonishing heroism of these young untested US soldiers Denied the extra support with which they trained these troops

nevertheless proved their worth in brutal combat and prevented an American military disaster Guide for the Selection of Communication Equipment for Emergency First Responders ,2002 Chosen Soldier Dick Couch,2007-03-06 IN combating terror America can no longer depend on its conventional military superiority and the use of sophisticated technology We are fighting guerrilla wars against insurgents hidden in remote regions often deep among the local population In battles such as these squadrons of billion dollar bombers and naval fleets mean much less than on the ground intelligence and the ability to organize local forces That s why more than ever before we need men like those of the Army Special Forces the legendary Green Berets In Chosen Soldier Dick Couch a former Navy SEAL widely admired for his books about SEAL training and operations offers an unprecedented view of the training of the Army Special Forces warrior Each year several thousand enlisted men and several hundred officers volunteer for Special Forces training less than a quarter of those who apply will complete the course Chosen Soldier spells out in fascinating detail the arduous regimen these men undergo the demanding selection process and grueling field exercises the high level technical training and intensive language courses and the simulated battle problems that test everything from how well they gather operational intelligence to their skills at negotiating with volatile often hostile local leaders Green Berets are expected to be deadly in combat yes but their responsibilities go far beyond those of other Special Operations fighters they re taught to operate in foreign cultures often behind enemy lines to recruit train and lead local forces to gather intelligence in hostile territory to forge bonds across languages and cultures They must not only be experts in such fields as explosives communications engineering and field medicine but also be able to teach those skills to others Each and every Green Beret must function as tactical combat leader negotiator teacher drill sergeant and diplomat These tasks require more than just physical prowess they require a unique mix of character intelligence language skills and most of all adaptability It s no wonder that the Green Berets training regimen is known as the hardest in the world Drawing on his unprecedented access to the closed world of Army Special Forces training Dick Couch paints a vivid intimate portrait of these extraordinary men and the process that forges America s smartest most versatile and most valuable fighting force **Command Legacy** Raymond A.
