Frontiers' Young Researcher Award – Progress in the Exchange Market

The Centers for Medicare & Medicaid Services has stated there are no plans to extend the 2015 deadline. Practices that wait much longer will find themselves scrambling to make changes in ways that could be very costly — both in terms of resources and lost revenues. Practices that take action now to ensure readiness will reap the rewards of better protection of revenue, more predictable implementation costs, favorable reimbursements, and greater accuracy and efficiency.
