**The Evaluative Study of Action Research** Eileen Piggot-Irvine,Lesley Ferkins,Wendy Rowe,Shankar Sankaran,2021-02-15 The Evaluative Study of Action

Research presents all eight published papers as part of the six year global Evaluative Study of Action Research ESAR in one volume. The study sought to enhance the academic rigour of Action Research AR and provide greater evidence of its impact. This research contained in this book shows in a cohesive way how the ESAR exemplifies original research incorporating new methodologies to create new knowledge. An Evaluative AR framework and indicators were created for initial qualitative data collection with six initial case studies using interviews, survey, documentary analysis and Goal Attainment Scaling methods. The initial study was followed by a large scale mixed method survey with 174 projects from across the globe. Almost all projects exhibited positive elements linked to AR precursors: focus, clarification, stakeholder engagement, funding processes, phased, planned yet flexible activity, data collection and analysis, ongoing collaboration and leadership, and outcomes, impacts, change, knowledge mobilisation and continuing action. The results of the ESAR elaborated in this volume offer important indications for how to create the sort of respectful engagement that is required for collective strength in solution based innovative change. This book will be a valuable resource for action researchers throughout the world, postgraduate research students, academics and libraries, evaluators and anyone in communities who wishes to know how to create sustainable change.
