The regulations and logistics can be daunting enough to turn away most would-be livestock farmers, and finding and keeping their customers challenges the rest. Farmer consultant and author Rebecca Thistlethwaite and her husband and co-author Jim Dunlop both have extensive experience raising a variety of pastured livestock in California and now on their homestead farm in Oregon. Each species chapter discusses the unique requirements of that animal, then delves into the steps it takes to prepare and get them to market. **Culinology** Research Chefs Association, 2016-02-29 *Culinology: The Intersection of Culinary Art and Food Science* will demonstrate how the disciplines of culinary arts and food science work hand in hand in the research and development of new manufactured food products for the commercial retail and foodservice industries. It will be the authoritative source that will add value and relevance to this growing discipline and its practitioners.
