Zouhair Atassi, 2017-12-23 The aim of the Protein Reviews is to serve as a publication vehicle for review articles that focus on crucial current vigorous aspects of protein structure function evolution and genetics The volumes will appear online before they are published in a printed book Articles are selected according to their importance to the understanding of biological systems their relevance to the unravelling of issues associated with health and disease or their impact on scientific or technological advances and developments Volume 19 focusses on Purinergic receptors also termed purinoceptors These are plasma membrane proteins present in nearly all mammalian tissues They participate in a number of cell functions that include proliferation and migration of neural stem cells vascular reactivity apoptosis and cytokine secretion and have been associated with learning and memory feeding conduct movement and sleep They facilitate relaxation of smooth muscle of the gut in response to adenosine P1 receptors or ATP P2 receptors The chapters in this volume are authored by experts in the field They deal with aspects of structure and biological activity of selected receptor proteins The first chapter in this volume reviews the current research on the Mechanism of channel gating and regulation of the activity of calcium activated chloride

channel ANO1 This is followed by a chapter dealing with Structure and function of the two component cytotoxins of Staphylococcus aureus and a chapter on Membrane Fusion and Infection involving the Influenza virus Hemagglutinin The fourth chapter reviews the impact of arrhythmogenic mutations through the structural determination of the L type voltage gated calcium channel Then there is a chapter that discusses some open questions pertaining to histone post translational modifications and nucleosome organization in transcriptional regulation The next chapter deals with regulation of the extracellular SERPINA5 protein C inhibitor penetration through cellular membranes This is followed by a chapter on coding of Class I and II aminoacyl tRNA synthetases a chapter on regulation of nephrin phosphorylation in diabetes and chronic kidney injury and a chapter on The Structure Forming Junction in oxidative protein folding and the events in the ER Finally the last chapter deals with the polyspecificity of anti lipid antibodies and its relevance to the development of autoimmunity This volume is intended for research scientists clinicians physicians and graduate students in the fields of biochemistry cell biology molecular biology immunology and genetics

Electromagnetic Acoustic Transducers Masahiko

Hirao,Hirotsugu Ogi,2016-10-25 This second edition provides comprehensive information on electromagnetic acoustic transducers EMATs from the theory and physical principles of EMATs to the construction of systems and their applications to scientific and industrial ultrasonic measurements on materials The original version has been complemented with selected ideas on ultrasonic measurement that have emerged since the first edition was released The book is divided into four parts PART I offers a self contained description of the basic elements of coupling mechanisms along with the practical designing of EMATs for various purposes Several implementations to compensate for EMATs low transfer efficiency are provided along with useful tips on how to make an EMAT PART II describes the principle of electromagnetic acoustic resonance EMAR which makes the most of EMATs contactless nature and is the most successful amplification mechanism for precise measurements of velocity and attenuation PART III applies EMAR to studying physical acoustics New measurements have emerged with regard to four major subjects in situ monitoring of dislocation behavior determination of anisotropic elastic constants pointwise elasticity mapping RUM and acoustic nonlinearity evolution PART IV deals with a variety of individual issues encountered in industrial applications for which the EMATs are believed to be the best solutions This is proven by a number of field applications
