Painted Designs, Etc Home Decorating Institute (Minnetonka, Minn.),Cy DeCosse Incorporated,1996 Give your home its own distinctive character with original painted designs A few basic techniques and a little inspiration will get you started PAINTED DESIGNS ETC introduces you to the best tools and materials for the job easy methods for adapting and transferring designs to any surface and no fail techniques for applying free hand designs Full color photography and careful instructions explain every detail Crafting Textiles in the Digital Age Nithikul Nimkulrat,Faith Kane,Kerry Walton,2016-09-08 In an era of increasingly available digital resources many textile designers and makers find themselves at an interesting juncture between traditional craft processes and newer digital technologies Highly specialized craft design practitioners may now elect to make use of digital processes in their work but often choose not to abandon craft skills

fundamental to their practice and aim to balance the complex connection between craft and digital processes. The essays collected here consider this transition from the viewpoint of aesthetic opportunity arising in the textile designer's hands on experimentation with material and digital technologies available in the present. Craft provides the foundations for thinking within the design and production of textiles and as such may provide some clues in the transition to creative and thoughtful use of current and future digital technologies. Within the framework of current challenges relating to sustainable development, globalization and economic constraints, it is important to interrogate and question how we might go about using established and emerging technologies in textiles in a positive manner.
