Principles for Effective Pedagogy Mary James, Andrew Pollard, 2014-06-11 The UK Teaching and Learning Research Programme TLRP worked for ten years to improve outcomes for learners in schools and other sectors through high quality research One outcome of individual projects and across Programme thematic work was the development of ten evidence informed principles for effective pedagogy Synopses of these principles have been widely disseminated particularly to practitioners However the evidence and reasoning underpinning them has not yet been fully explained This book fills this gap by providing a scholarly account of the research evidence that informed the development of these principles as well as offering some evidence of early take up and impact It also includes responses from highly respected researchers throughout the world in

order to locate the work in the broader international literature to extend it by drawing on similar work elsewhere to provide critique and to stimulate further development and debate Principles for Effective Pedagogy contributes to international dialogue on effective teaching and learning providing a focus for scholarly comment sharing of expertise and knowledge accumulation This book was originally published as a special issue of Research Papers in Education

Achievement and Inclusion in Schools Lani Florian, Kristine Black-Hawkins, Martyn Rouse, Kristine Black Hawkins, 2007-08-07 Winner of the nasen Special Educational Needs Academic Book award 2008 There is an enduring and widespread perception amongst policy makers and practitioners that certain groups of children in particular those who find learning difficult have a detrimental effect on the achievement of other children Challenging this basic assumption Achievement and Inclusion in Schools argues that high levels of inclusion can be entirely compatible with high levels of achievement and that combining the two is not only possible but essential if all children are to have the opportunity to participate fully in education Packed with vivid case studies that explore the benefits and tensions for children and schools this book sets out to answer the following questions What is the nature of the relationship between the inclusion of some children and the achievement of all Are there strategies which can raise the achievement of all children whilst safeguarding the inclusion of others who are more vulnerable What changes can a school make to ensure high levels of inclusion as well as high levels of achievement for all its children Achievement and Inclusion in Schools offers an up to date analysis of current issues provides practical guidance for practitioners and policy makers and will be of interest to anyone passionate about inclusive education

Teaching Chemistry Around the World Björn Risch, 2010 As teachers we often tend to expect other countries to teach chemistry in much the same way as we do but educational systems differ widely At Bielefeld University we started a project to analyse the approach to chemical education in different countries from all over the world Teaching Chemistry around the World 25 countries have participated in the project The resulting country studies are presented in this book This book may be seen as a contribution to make the structure of chemistry teaching in numerous countries more transparent and to facilitate communication between these countries Especially in the case of the school subject chemistry which is very unpopular on the one hand and occupies an exceptional position on the other hand due to its relevance to jobs and everyday life and most notably due to its importance for innovation capacity and problem solving we have to learn from each others educational systems
