Christopher Adair-Toteff

Federal And State Constitutions Answer Key 2015:

Dictatorial Power and States of Exception in the Weimar Republic Christopher Adair-Toteff, 2025-06-30 This book is an account of the tension between the need for order and the desire for freedom during the tense years of the Weimar Republic. It explains how various groups interpreted Article 48 of the Weimar Constitution and utilized it to reinstate peace and tranquility. While Article 48 is usually associated with the so-called Preussenschlag, the taking over of the Prussian government by the order of Reich Chancellor Kurt von Papen, it had been introduced as a necessity during earlier states of emergency. This investigation delves into the relevant works by many of the leading constitutional scholars in Germany. This list includes Hugo Preuss, Carl Schmitt, Hans Kelsen, Gerhard Anschütz, Richard Thoma, Erwin Jacobi, Hans Nawiasky, and Richard Grau. This book is a clearly written and detailed account of the history surrounding the debate about the appropriate emergency measures to be taken under Article 48. The work is important for its historical interest and also because the conflict between authority and freedom has continuing relevance. The book will be a valuable resource for researchers and academics working in the areas of Legal History, Legal Philosophy, Legal Theory, Constitutional History, and German Studies.

The European Union Jonathan Olsen, 2020-07-30 Thoroughly revised the seventh edition of this accessible and highly respected text provides a rigorous yet digestible introduction to the European Union. Additionally, it authoritatively explains developments that continue to bring challenges to this powerful institution in times of great political change. Key features: Clearly covers the history, governing institutions, and policies of the EU. Fully updated with new tables, figures, and photographs. In-text features such as Chapter Overviews, Questions to Consider, and Further Reading encourage deeper research and debate. Sustained discussion of transformative and historical change in the upheaval of Brexit and its ramifications and the future relationship of the UK with the EU. Through reflection on destabilizing issues such as immigration and the years of refugee crisis in Europe, the continued crisis in the eurozone, tensions with Poland and Hungary, Euroskepticism, Russia, and the rise of populism. Increased coverage throughout of women or minorities within the EU. Jonathan Olsen presents the EU as one of the world's economic and political superpowers which has brought far-reaching changes to the lives of Europeans and has helped its member states to take a newly assertive role on the global stage. Essential reading for students of European and EU politics, this book offers an up-to-the-minute look at both the opportunities and existential threats facing the EU.

Politics and Constitutions in Southeast Asia Marco Bünte, Björn Dressel, 2016-07-15 In recent years, the constitutional landscape of Southeast Asia has changed tremendously. Against a worldwide background of liberalization, globalization, and democratization, states in the region have begun to alter their constitutions, reinforcing human rights provisions and putting in place institutional safeguards such as constitutional courts and human rights commissions. On closer examination, however, the picture is very complex, with constitutional developments differing greatly between states. This book explores a range of current constitutional developments in the different states of Southeast Asia through a distinct political lens. Drawing on

comparative and single case studies it considers various constitutional areas including constitution drafting human rights legal safeguards and the continuing role of the military sets constitutional developments in the wider political and historical context of each country and makes comparisons both with Western democracies and with other developing regions The book concludes by assessing overall how far constitutional practices and trajectories are converging towards a liberal Western model or towards a distinctly Southeast Asian model *A Federal Right to Education* Kimberly Jenkins Robinson,2023-06-13

The United States Supreme Court closed the courthouse door to federal litigation to narrow educational funding and opportunity gaps in schools when it ruled in *San Antonio Independent School District v Rodriguez* in 1973 that the Constitution does not guarantee a right to education Rodriguez pushed reformers back to the state courts where they have had some success in securing reforms to school funding systems through education and equal protection clauses in state constitutions but far less success in changing the basic structure of school funding in ways that would ensure access to equitable and adequate funding for schools *Analyzing American Democracy* Jon R. Bond, Lydia M. Andrade,2023-08-31

The Federal Contract Stephen Tierney, 2022-05-26 Federalism is a very familiar form of government It characterises the first modern constitution that of the United States and has been deployed by constitution makers to manage large and internally diverse polities at various key stages in the history of the modern state Despite its pervasiveness in practice this book argues that federalism has been strangely neglected by constitutional theory It has tended either to be subsumed within one default account of modern constitutionalism or it has been treated as an exotic outlier a sui generis model of the state rather than a form of constitutional ordering for the state This neglect is both unsatisfactory in conceptual terms and problematic for constitutional practitioners obscuring as it does the core meaning purpose and applicability of federalism as a specific model of constitutionalism with which to organise territorially pluralised and demotically complex states In fact the federal contract represents a highly distinctive order of rule which in turn requires a particular territorialised approach to many of the fundamental concepts with which constitutionalists and political actors operate constituent power the nature of sovereignty subjecthood and citizenship the relationship between institutions and constitutional authority patterns of constitutional change and ultimately the legitimacy link between constitutionalism and democracy In rethinking the idea and practice of federalism this book adopts a root and branch recalibration of the federal contract It does so by analysing federalism through the conceptual categories that characterise the nature of modern constitutionalism foundations authority subjecthood purpose design and dynamics This approach seeks to explain and in so doing revitalise federalism as a discrete capacious and adaptable concept of rule that can be deployed imaginatively to facilitate the deep territorial variety that characterises so many states in the 21st century

Constitutional Resilience in South Asia Swati Jhaveri, Tarunabh Khaitan, Dinesha Samararatne, 2023-06-01 South Asia has had a tumultuous and varied experience with constitutional democracy that predates the recent rise in populism and its study in established democracies And yet this region has remained largely ignored by constitutional studies and democracy scholars This book addresses this gap and presents a contribution to the South Asia centric literature on the topic of the stability and resilience of constitutional democracies Chapters deal not only with relatively well known South Asian countries such as India Bangladesh Pakistan and Sri Lanka but also with countries often ignored by scholars such as Bhutan Nepal Maldives and Afghanistan The contributions consider the design and functioning of an array of institutions and actors including political parties legislatures the political executive the bureaucracy courts fourth branch guarantor institutions such as electoral commissions the people and the military to examine their roles in strengthening or undermining constitutional democracy across South Asia Each chapter offers a contextual and jurisdictionally tethered account of the causes behind the erosion of constitutional democracy and some examine the resilience of constitutional institutions against democratic erosion

Revolutions and

Reconstructions Van Gosse, David Waldstreicher, 2020-08-28 *Revolutions and Reconstructions* gathers historians of the early republic, the Civil War era, and African American and political history to consider not whether black people participated in the politics of the nineteenth century but how, when, and with what lasting effects. Collectively, its authors insist that historians go beyond questioning how revolutionary the American Revolution was or whether Reconstruction failed and focus instead on how political change initiated by African Americans and their allies constituted the rule in nineteenth-century American politics, not occasional and cataclysmic exceptions. The essays in this groundbreaking collection cover the full range of political activity by black northerners after the Revolution, from cultural politics to widespread voting within a political system shaped by the rising power of slaveholders. Conceptualizing a new black politics, contributors observe, requires reorienting American politics away from black-white and North-South polarities and toward a new focus on migration and local or state structures. Other essays focus on the middle decades of the nineteenth century and demonstrate that free black politics, not merely the politics of slavery, was a disruptive and consequential force in American political development. From the perspective of the contributors to this volume, formal black politics did not begin in 1865 or with agitation by abolitionists like Frederick Douglass in the 1840s but rather in the Revolutionary era's antislavery and citizenship activism. As these essays show, revolution, emancipation, and Reconstruction are not separate eras in U.S. history but rather linked and ongoing processes that began in the 1770s and continued through the nineteenth century. Contributors: Christopher James Bonner, Kellie Carter Jackson, Andrew Diemer, Laura F. Edwards, Van Gosse, Sarah L. H. Gronningsater, M. Scott Heerman, Dale Kretz, Padraig Riley, Samantha Seeley, James M. Shinn Jr., David Waldstreicher. *Learning Law* Anthony Marinac, Brian Simpson, Caroline Hart, Rhianna Chisholm, Jennifer Nielsen, Michael Brogan, 2017-11-16 *Learning Law* is an indispensable guide providing the foundational knowledge and skills required for the study and practice of law. *A First Nations Voice in the Australian Constitution* Shireen Morris, 2020-08-06 This book makes the legal and political case for Indigenous constitutional recognition through a constitutionally guaranteed First Nations voice as advocated by the historic Uluru Statement from the Heart. It argues that a constitutional amendment to empower Indigenous peoples with a fairer say in laws and policies made about them and their rights is both constitutionally congruent and politically achievable. A First Nations voice is deeply in keeping with the culture, design, and philosophy of Australia's federal Constitution as well as the long history of Indigenous advocacy for greater empowerment and self-determination in their affairs. Morris explores the historical, political, theoretical, and international contexts underpinning the contemporary debate before delving into the constitutional detail to craft a compelling case for change. *Making Globalization Happen* Vijayashri Sripati, 2024-03-10 In *Making Globalization Happen: The Untold Story of Power, Profits, Privilege*, Sripati explains how, when, through which entities, and for what purposes economic globalization was catalyzed and its effects on the Global South in general and South Asia in particular. Based on an innovative international constitutional political economy framework, Sripati examines how the Western
