Keyboard ,1997 Let's Get to the Nitty Gritty Horace Silver,2007-08 Silver details the economic forces that persuaded him to put Silveto to rest and to return to the studios of such major jazz recording labels as Columbia Impulse and Verve where he continued expanding his catalogue of new compositions and making recordings that are at least as impressive as his earlier work Silver s irrepressible sense of humor combined with his distinctive spirituality make his account which is well seasoned with anecdotes about the music the musicians and the milieu in which he worked and prospered both entertaining and inspiring Jacket *The Oxford Handbook of Sound and Imagination* Mark Grimshaw,Mark Grimshaw-Aagaard,Mads Hansen,Martin Knakkegaard,2019 In this two volume Handbook contributors address the tendency to discuss musical imagination through terms like compositional creativity or performance technique correcting the current bias towards visual imagination to instead highlight the many forms of sonic and musical imagination *The Oxford Handbook of Sound and Imagination, Volume 2* Mark Grimshaw-Aagaard,Mads Walther-Hansen,Martin Knakkegaard,2019-07-26 Whether social cultural or individual the act of imagination always derives from a pre existing context For example we can conjure an alien s scream from previously heard wildlife recordings or mentally rehearse a piece of music while waiting for a train This process is no less true for the role of imagination in sonic events and artifacts Many existing works on sonic imagination tend to

discuss musical imagination through terms like compositional creativity or performance technique In this two volume Handbook contributors shift the focus of imagination away from the visual by addressing the topic of sonic imagination and expanding the field beyond musical compositional creativity and performance technique into other aural arenas where the imagination holds similar power Topics covered include auditory imagery and the neurology of sonic imagination aural hallucination and illusion use of metaphor in the recording studio the projection of acoustic imagination in architectural design and the design of sound artifacts for cinema and computer games
